ACeR ®

The world's 3rd largest PC manufacturer.

TravelMate® 510 Series

TravelMate

This all-in-one portable solution offers performance and incredible value to mobile professionals

Key Features

◆ **Intel® Pentium® II processors 300MHz or Celeron™ processors 366MHz**

◆ **32 or 64MB Synchronous DRAM, expandable to 256MB**

◆ **All-in-one integrated 24X (max) CD-ROM and floppy drive**

◆ **Enhanced multimedia capabilities with dynamic stereo and built-in CD player**

The TravelMate 510 series of notebook computers provides exceptional performance and enhanced multimedia in an all-in-one portable solution. Taking advantage of Intel® Pentium® II or Celeron™ processors to handle your most complex business applications, the 510 series is also designed to give you optimal multimedia performance to deliver incredible presentations. This includes an acoustically enhanced speaker system with a face-forward design, and easy-access CD controls that can be used even when the notebook is powered off.

Everything you need to reach the height of productivity is already built into the TravelMate 510. With an integrated CD-ROM and floppy drive, you don't have to leave anything behind when you go on the road. The integrated V.90 56Kbps data/fax modem keeps you in touch wherever that road takes you. And an optional port replicator enables you to easily connect to peripherals when you return to the office.

Combined with Acer's exceptional quality and reliability, these features make the TravelMate 510 a valuable addition to your mobile office.

TravelMate

510 Series

specifications

CPU
◆ Intel® Pentium® II processor 300MHz (333MHz when available), or Celeron™ processors 300 or 333MHz (366MHz when available)

System Memory
◆ 32 or 64MB SDRAM, expandable to 256MB
◆ 256KB L2 cache (Pentium II processors)
◆ 128KB L2 cache (Celeron processors)

Display/Graphics
◆ 256-bit AGP graphics accelerator with 2.5MB SGRAM video memory
◆ 12.1" (diagonal) HPA DSTN or TFT display, 800x600 resolution with 16M colors; or 13.1" XGA TFT display, 1024x768 resolution with 16M colors
◆ Supports 1024x768, 64K colors or 800x600, 16M colors external display
◆ Supports dual view displays on notebook screen and external monitor

Multimedia/Audio
◆ 24X (max) CD-ROM
◆ Built-in Compact Disc player with instant playback
◆ PCI audio with 3D sound effects, Microsoft DirectSound and SoundBlaster Pro compatible
◆ Acoustically enhanced speaker system
◆ Integrated microphone
◆ Audio in/out jacks
◆ Microphone in jack

Modem
◆ Integrated V.90 56Kbps data/fax modem with multi-country support

I/O Connections
◆ Two CardBus PC slots (Two Type II or one Type III), ZV supported
◆ IrDA-compliant FIR (Fast infrared) wireless communications port
◆ Universal Serial Bus (USB) port
◆ Parallel port (ECP compliant)
◆ RS-232 (16550 compliant) serial port
◆ PS/2® keypad/keyboard/mouse port
◆ External video port
◆ Port replicator connector

Storage Devices
◆ 4.1 and 6.4GB* Ultra DMA internal hard disk drive
◆ 1.44MB, 3.5" floppy disk drive

Power Supply
◆ 100-240V auto-sensing 60W fast-charging AC adapter
◆ Lithium Ion battery
◆ Up to 4 hours of battery life with APM 1.2

Keyboard and Pointing Device
◆ 84-key, inverted "T" cursor keyboard layout; 19mm key spacing, 3.0mm key travel
◆ 12 function keys; 4 cursor control keys; separate PgUp, PgDn, Home and End keys; 2 Windows® keys
◆ Built-in touchpad pointing device located at the center of the ergonomic palmrest
◆ Embedded numeric keypad

Dimensions and Weight
◆ Width: 12.1"
◆ Height: 1.8"
◆ Depth: 10.1"
◆ Weight: 7.3lbs (with battery)
    0.75lbs (AC adapter)

Regulatory Compliance
◆ EMI: FCC Class B, FTZ
◆ Safety: UL, CSA, TUV

Warranty/Services
◆ One year limited warranty, parts and labor
◆ One year International Traveler's Warranty
◆ Toll-free technical support for first year; available 24 hours a day, 7 days a week

Software/Utilities
◆ Microsoft Windows 98; Resource Recovery CD; Sleep Manager; Notebook Manager; IntelliSync (with cable); PC Doctor; PC-Cillan 98

Accessible stereo CD controls provide instant music playback even when the unit is off.

Options
◆ 16, 32 or 64MB SDRAM memory upgrades
◆ Port replicator
◆ PC Cards - LAN
◆ PC Cards - Modem
◆ External numeric keypad
◆ Additional Lithium Ion batteries
◆ Additional power adapters
◆ Carrying cases
◆ USB peripherals

Acer is the world's 3rd largest PC manufacturer†, with manufacturing, distribution, and service facilities in 39 countries. We are one of the few companies that develop, design, and produce our own innovative notebook computers, award-winning servers, and the new manageable desktop PCs. Put it all together, and it's clear why Acer should be your choice for quality products and integrated solutions.
