

# COMPAQ CONTURA 3/25c.

## WE'RE OUT TO MAKE THE BUSINESS WORLD A LITTLE MORE COLORFUL.

## AT A PRICE EVEN CFOs WILL APPRECIATE.

Now what you want in a color notebook and what you can afford are the same thing. Because the COMPAQ Contura 3/25c brings you all the brilliant color, Compaq quality, durability and notebook PC convenience you expect. At a price you probably don't.

### No need to settle for less.

Some companies make their computers more affordable by using cheap components and someone else's factory. Not so at Compaq. We engineered the COMPAQ Contura 3/25c for greater affordability as well as dependability by integrating quality electronic components with innovative, space-saving mechanical components.

In short, it's everything you'd expect from a COMPAQ PC: a quality, reliable, ergonomically-designed PC, thoughtfully engineered to deliver a superior level of built-in convenience features, many of which are Compaq exclusives. All in a stylish, lightweight notebook weighing a mere 6.7 lbs. — the lightest in its class.

### Inexpensive. Not incomplete.

About the only thing the COMPAQ Contura 3/25c lacks is a big price tag. Just take a look at these features:

- Large nine-inch, quality color display providing high contrast and brightness for sharper images that are easier on the eyes.
- Unmatched graphics performance for Microsoft Windows, thanks to a

customized graphics chip and high-performance drivers developed by Compaq for faster response time.

- Simultaneous display capability that allows you to work on your PC while your audience views an external monitor.
- Nickel Metal Hydride (NiMH) battery standard for three-plus hours of operation without recharging. When it's time to recharge, the COMPAQ Contura 3/25c does so in just one hour when powered down or one-and-a-half hours when in use.
- Extensive power management capabilities and the unique COMPAQ hibernation feature.
- Power to run demanding business applications with a 25MHz 386SL processor and 64KB cache. In addition, the COMPAQ Contura 3/25c comes standard with 4MB of RAM expandable up to 12MB. Its internal hard drive capacity is expandable up to 120MB.
- Familiar desktop keyboard design including *isolated*, inverted "T" cursor keys plus convenient, graphically-labeled special-feature Hot Keys for instant access to frequently used functions such as reading the battery gauge or tuning the power management level.
- A wide range of faster, reliable communications support while traveling — including a cost-effective and convenient 2400 bps data/9600 bps send/receive fax modem available as an internal option.
- Exclusive MultiLock security features with multiple hardware, software and mechanical security options.

The COMPAQ Contura 3/25c charges in one hour when powered down or one-and-a-half hours when in use. That's significantly less than the competition as shown in the chart below.

### Rugged and reliable.

Our Total Quality Commitment program is our highest priority in manufacturing, so with the COMPAQ Contura 3/25c, dependability is assured. Moreover, it's made from rugged materials and tested to extremes of heat, cold and humidity. Add to that extensive shock and vibration testing and it's clear this is a notebook PC built to withstand life on the road.

But in the event you need service or support, remember that the CompaqCare program provides you:

- Our one-year on-site\* limited warranty honored by over 2600 Authorized COMPAQ Computer Resellers and numerous major Authorized Third-Party Maintainers. And when you're traveling abroad, you're covered by our one-year worldwide limited warranty.

- Our toll-free customer support line (1-800-345-1518) staffed by hotline technicians using our SMART Program.
- PAQFax for downloading COMPAQ product and technical information directly to your fax machine.
- RemotePAQ which allows COMPAQ engineers to trouble-shoot your hardware and software configurations via modem from anywhere in North America. A first for PC computing!

### All the features. Without all the expense.

Thinking about bringing a little more color to your business? Avail yourself to the performance and quality of the COMPAQ Contura 3/25c. Without adversely impacting your available funds.

Preinstalled MS-DOS 5.0 and Windows 3.1 get you up and running fast, while EZ Help Online Library provides easy access to helpful hardware and software information. A color-matched trackball is another helpful feature.
