

# Dell Latitude 100L

**Value business notebook for companies  
focused on acquisition price.**

The NEW Latitude 100L platform introduces a new sub-brand to the Latitude line of products; the L series. The Latitude L series of products are designed for small to mid-sized businesses that are focused on acquisition price. The L series is targeted at companies that require a reliable, managed PC, but are willing to trade some of the Total Cost of Ownership (TCO) features and benefits provided by the Latitude D-Family notebooks, such as long life cycles, managed transitions, and peripheral commonality to obtain an aggressive acquisition price.

## **Proven Technology**

The 100L features the Mobile Intel® Pentium® 4 or Intel Celeron® processor, the Intel 852GMV chipset and embedded graphics utilizing the Intel Extreme® Graphics solution. It also features up to 1024 MB of shared<sup>1</sup> system memory, ATA-100 hard disk drives and USB 2.0 support. The 100L is available with a number of different operating systems and productivity suites. These proven technologies provide business users with the relevant technology they need, at a price they can afford.

## **Dell Wired and Wireless Communications Solutions**

Every Dell Latitude 100L notebook features a 56K<sup>1</sup> V.92 capable modem and 10/100 wired network card as part of the standard offering. The 100L offers an option of the Dell Wireless 1350 802.11b/g or Dell Wireless 1450 802.11a/b/g wireless MiniPCI cards.

## **The Right Technology at the Right Price**

The new Dell Latitude 100L provides the perfect blend of relevant technology, manageability and expandability that small to mid-sized business users demand, all at a price that won't bust the budget.

## **International Service and Support<sup>2</sup>**

The Dell Latitude 100L is designed to exceed your expectations and backed by Dell's exceptional service and support. The 100L comes standard with 1 year Next Business Day On-site<sup>3</sup> service and International programs across 40 countries.

Easy as **DELL**™

## SERVICE & SUPPORT

Dell PCs use genuine Microsoft® Windows®. [www.microsoft.com/piracy/howtotell](http://www.microsoft.com/piracy/howtotell)

Dell's Terms and Conditions of Sales and Service apply and are available upon request. Dell is not responsible for errors in typography or photography.  
 1. Download speeds are limited to 53Kbps. Upload speeds are less (about 30Kbps). Speeds can vary by line condition and modem manufacturer. Analog phone line and service required.  
 2. Service may be provided by third party. Availability limited. Other conditions apply. See [www.dell.com/servicecontracts](http://www.dell.com/servicecontracts) for current list of eligible systems and selected countries.  
 External devices excluded; availability of specific parts varies in each country.  
 3. Service may be provided by third-party. Technician will be dispatched if necessary following phone-based troubleshooting. Subject to parts availability, geographical restrictions and terms of service contract.  
 Service timing dependent upon time of day call placed to Dell. U.S. only.  
 4. Up to 64 MB of system memory may be allocated to support graphics, depending on system memory size and other factors.  
 5. Discs burned with this drive may not be compatible with some existing drives and players; using DVD+R media provides maximum compatibility.  
 6. For memory keys, 1MB = 1 million bytes.
