Service...

DIMENSION SHATTERS THE VALUE BARRIER.

THE MOST IMPORTANT FACT YOU CAN KNOW ABOUT DIMENSION IS THAT IT COMES FROM DELL.

To computer users all around the world, Dell means top performance, high quality products and outstanding customer satisfaction from a strong and stable FORTUNE 500® company. In fact, Dell computers have ranked first in fifteen independent customer satisfaction polls and more than two hundred expert product comparisons in the last three years alone. The Dimension brand springs directly from this tradition of excellence.

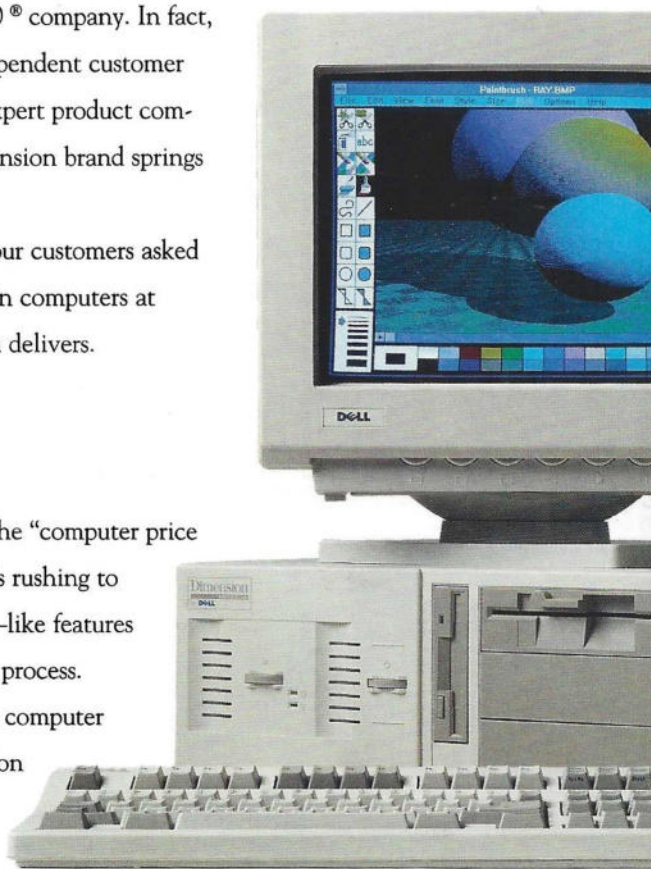

We created Dell Dimension because our customers asked for a select lineup of pre-configured, ready-to-run computers at excellent prices. That's exactly what Dimension delivers.

WITH DIMENSION, YOU BECOME THE BIG WINNER IN THE COMPUTER PRICE WAR.

No doubt you've heard plenty about the "computer price war." It seems everyone who makes computers is rushing to slash prices. Unfortunately, some other things—like features and component quality—can get slashed in the process.

Because it comes from an exceptional computer company, Dimension is the exception. Dimension systems remain feature-rich and loaded with quality in every detail. Our high standard for components is one important example. Some companies use "spot buying" practices that put whatever parts are cheapest this week into their computers. Dell component engineers insist on quality, and ensure it through a worldwide quality audit program of our chosen vendors.

And our prices are still low enough to win the price war hands down. So victory is yours.

50 MHz SPEED STARTING AT JUST \$2,399!
The Dimension 486DX2/50 features the high-performance 50 MHz Intel processor. See Page 6.

CALL NOW!

Dell's new

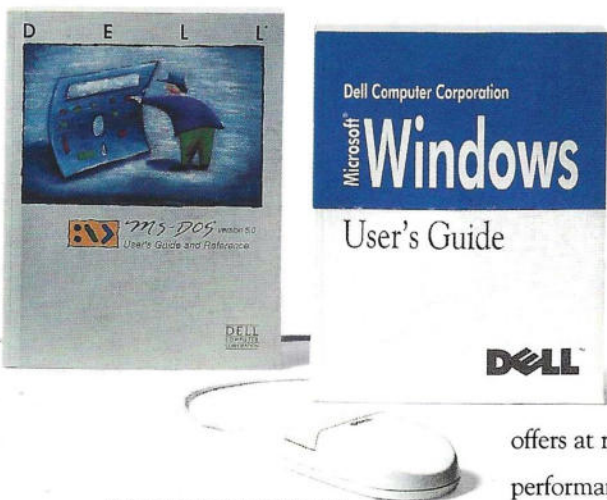

SPEED OR STORAGE—DIMENSION OFFERS YOU BOTH.

Whether you want a system with faster processing speed, more data storage space or both, Dimension gives you inexpensive

systems to match your needs. From fast running notebooks to flexible desktop systems to powerful servers, Dimension gives you the options you need at prices you can afford.

And we've simplified the process for you. The systems are already complete—all you need to do is choose which features are important to you. Add to that the printers and specially bundled software packages that Dimension

offers at reduced prices and you have all the power and performance you need with a bonus of major-league savings.

MORE THAN JUST A COMPUTER!

Each Dimension system comes with convenient extras.

UP AND RUNNING—RIGHT OUT OF THE BOX!

Dimension products are designed to be ready to run from the moment they arrive. They come complete with a monitor, a mouse, MS-DOS® 5 and Microsoft® Windows™ 3.1, so you're ready to add the applications you need and compute from day one.

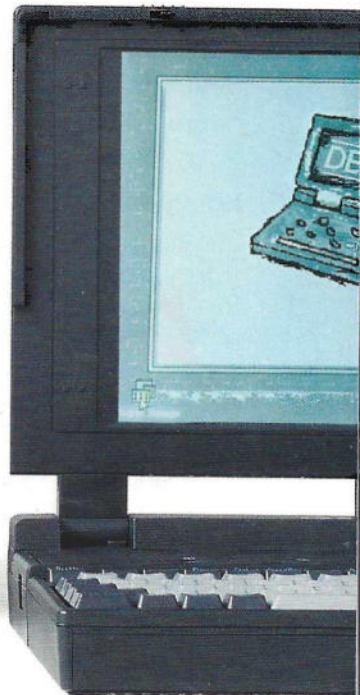

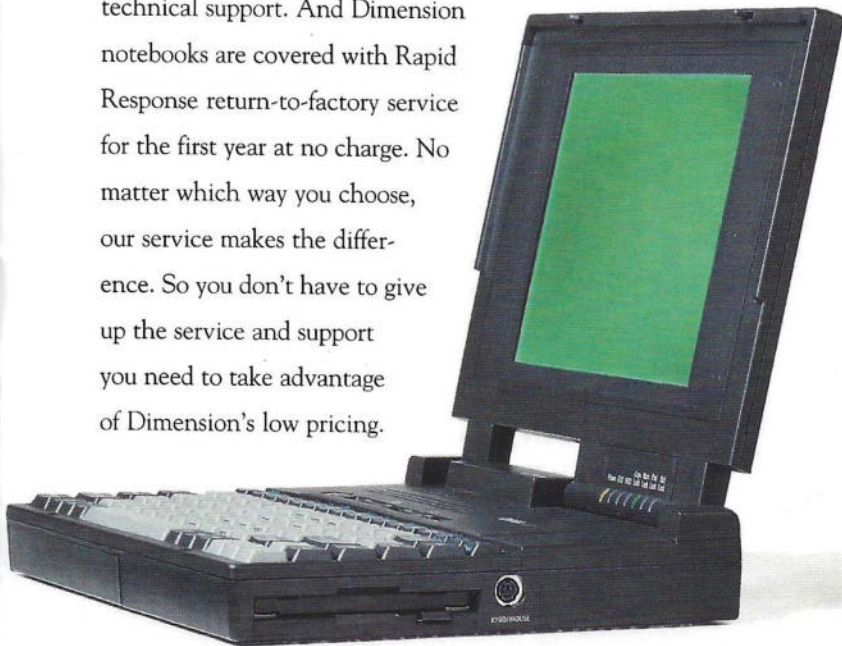

YOU DON'T HAVE TO SPEND A BUNDLE TO GET GREAT SERVICE.

Everyone agrees that great service sets Dell apart from other computer companies, and even though you're paying less for a Dimension system, you're still getting service that will set your mind at ease! For a full year, you'll have Second Business Day On-Site Service¹ that ensures a service representative will arrive at your home or office within two business days. So you have an expert technician who will repair your system *in your home or office!* All you have to do is make a toll-free phone call. In fact, our toll-free technical support will probably

Dimension.

SPEND LESS WITHOUT GETTING LESS.

take care of any system problem before you need a service call—most technical problems are solved with a single telephone call to our Expert Help hotline. You can expect one of our technical support specialists to have you back up and running in ten minutes or less. Or you can troubleshoot computer system problems yourself with help from our convenient bulletin board service and 24 hour automated technical support. And Dimension notebooks are covered with Rapid Response return-to-factory service for the first year at no charge. No matter which way you choose, our service makes the difference. So you don't have to give up the service and support you need to take advantage of Dimension's low pricing.

TO START SAVING, JUST START TURNING PAGES.

You'll find powerfully low prices and special offers to go with your choice of ten complete computer systems—including five desktops, three floorstanding systems and two feature-loaded notebooks—in a range of popular configurations. You'll also find all the hard-working, low-priced peripherals you need to put your new Dimension system to work.

Dell Dimension. The best way to spend less without getting less.

POWERFUL NOTEBOOKS STARTING AT JUST \$1,399!

PERFORMANCE AND VALUE.

A Dimension floorstanding power system is the perfect choice for a workstation-class PC system or a network server. These systems incorporate all the important features—including 6 expansion slots and 6 drive bays—at a price that means bottom-line value. The floorstanding configuration is available with each of the Dimension i486 systems for an additional \$200. And we offer an additional, more powerful configuration designed specifically to work even greater magic as a network server. All Dimension i486 systems incorporate the upgradeable chip technology that makes upgrades easy. With the speed-doubler systems, you'll enjoy even greater performance and the benefit of upgradeability. It's simple: Dimension gives you the best price on the best value available.

Solid price perform

Dimension's 386-powered computers deserve a second look. And a place in your home or office. After all, the prices on these small chassis systems are unbeatable, and the performance record of Dell's 386 machines is second to none. The Dimension 386SX/25 comes standard with 2MB of RAM but can upgrade to 16MB on the system board—that's more than enough memory to manage Windows and graphics packages as well as big spreadsheets or DTP projects. With options for larger capacity hard drive and higher resolution monitors, you'll find that one of Dimension's 386SX/25 configurations can help you manage your business. And the combination of performance and low price means solid value that will help your productivity and your bottom line.

- PC Magazine says that if you choose this machine "you can't go wrong."—August 1992

KEYS TO PORTABLE POWER.

Not all notebook keyboards are created equal, and no notebook keyboard has drawn more universal praise than the one featured on Dimension notebook systems. The full-travel, 85-key keyboard is the same one that PC User magazine says is "superb." PC Week compliments this keyboard by describing its "excellent feel," and PC Magazine describes the keyboard as "a pleasure to use." Among its distinctive features are the separate screen navigation keys and cursor control keys in the familiar, inverted "T" layout.

THAT FITS IN YOUR BRIEFCASE.

Meet the high performance notebooks with the best combinations of hot features and great prices. Standard for both is 2MB of RAM (upgradeable to 8MB)—so you have the power and storage capacity to run Microsoft Windows and other popular applications at productivity-building speeds. We've even added a dedicated data/FAX modem slot so you can touch base while you're on the road. With Dimension's long-lasting NiCad battery (up to 5 hours of power using power management!), AC adapter/recharger and all the standard interfaces, you'll be able to get work done while you're on the road and make a seamless return to the office computer systems when you're back home. Both of these systems come with a full year of our Rapid Response return-to-factory service.

SMART BUSINESS BUNDLE

- Microsoft Office is what many consider the most powerful combination of software packages available for Windows, and it is part of the Dimension Smart Business Bundle. Microsoft Office includes Microsoft Excel 4.0 for spreadsheets, Microsoft Word for Windows 2.0 for word and document processing, and Microsoft PowerPoint 3.0 for presentations. This special bundle also includes a modem and MTEZ™ communications software so you can transmit information anywhere in the world.
- Microsoft Office software package, including Microsoft Word for Windows, Microsoft PowerPoint 3.0 and Microsoft Excel 4.0
- Modem with MTEZ communications software

Only \$239! (with purchase of Dimension system)

SMARTER BUSINESS BUNDLE

Add a FAX for just \$50

For just \$50 more, you'll get the Dimension Smart Business Bundle plus a 2400/9600 data/FAX modem with FAXit™ and MTEZ software. This modem supports the MNP5 protocol that enables the modem to detect errors and compress data so transmission times (and your costs) are dramatically reduced. Of course, you also receive the three Microsoft applications in Microsoft Office.

- Microsoft Office Software package
- 2400/9600 data/FAX modem with FAXit and MTEZ communications software

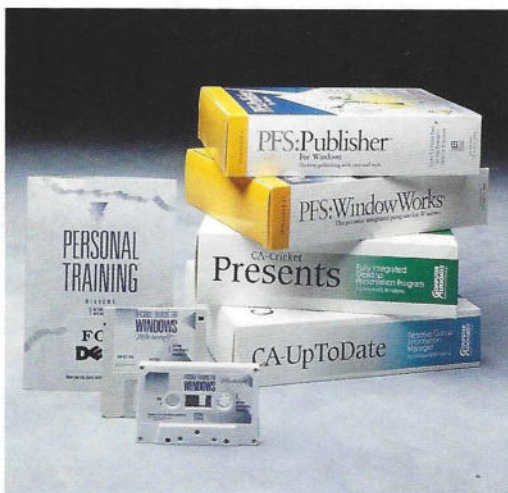

Only \$289! (with purchase of Dimension system)

SMALL BUSINESS SPECIAL

A single software package that provides all the basics for running a small business. Combine word processing, spreadsheet and database capabilities with basic desktop publishing, a first-rate presentation package and an office management program. The links between applications are smooth, and this package won't overload your hard drive. You'll get:

- PFS: WindowWorks
- PFS: Publisher
- CA-Cricket Presents
- CA-UptoDate
- Windows Getting Started training program

Only \$149! (with purchase of Dimension system)

These offers expire December 31, 1992.

you a smart start.

SOFTWARE BUNDLES BUILD PRODUCTIVITY

BASIC START-UP KIT

More than 75% of all computer problems are caused by AC power surges and spikes. But you won't have to worry about your new Dimension system when you take advantage of this special start-up value. This Dimension Bundle starts with a Tripp Lite Spike Stik with six outlets for surge and spike protection. Depend on Tripp Lite, a leading name in power protection products. You also get a mouse pad, a box of ten diskettes and a handy diskette caddy to keep it all organized.

- Tripp Lite Spike Stick
- Mouse pad
- Box of ten 3.5 inch diskettes
- Diskette caddy

Only \$39! (with purchase of Dimension system)

BETTER START-UP KIT

This special start-up value offers outstanding surge protection. If your Tripp Lite Isobar four outlet surge protector ever fails to protect your equipment from surge-related power problems, its lifetime Gold Seal Warranty provides repair or replacement of the Isobar and connected equipment. Kit includes training on Windows 3.1 with a full-featured diskette and audio cassette, mouse pad, box of ten 3.5 inch diskettes and organizer diskette caddy.

- Tripp Lite Isobar with Gold Seal Warranty
- Mouse pad
- Box of ten 3.5 inch diskettes/Diskette caddy
- Windows 3.1 personal training software

Only \$69! (with purchase of Dimension system)

BEST START-UP KIT

The best way to protect your new Dimension system is with the Tripp Lite Command Console surge protector. Your computer is protected from surges and spikes in one attractive, convenient console. The Command Console also offers Gold Seal Warranty, noise filtering, static protection and FAX/modem protection. When you take advantage of this special offer, you'll receive:

- Tripp Lite Command Console surge protector with FAX/modem protection and Gold Seal Warranty
- Mouse pad
- Box of ten 3.5 inch diskettes/diskette caddy
- Atech Allfonts for Business printer fonts
- Windows 3.1 personal training software

Only \$109! (with purchase of Dimension system)

Wise

There's a Dimension system in your future! And you can use this chart to determine which combination of monitor, hard drive and processor speed will make the best use of your talents (and your budget).

If You Need:	\$1,200 RANGE	\$1,500 RANGE	\$2,000 RANGE	\$2,500 RANGE	\$3,000 RANGE
Faster Processing Speed			486DX/33 4MB 120MB Super VGA \$1,999	486DX2/50 4MB 212MB Ultra VGA \$2,499	486DX2/50s 8MB 212MB Ultra VGA \$2,899
More Data Storage		386SX/25 4MB 120MB Super VGA \$1,449	486SX/25s 4MB 212MB Super VGA \$2,099	486DX/33 4MB 320MB Ultra VGA \$2,549	486DX/33s 8MB RAM 320MB Ultra VGA \$2,949
Best Combination of Speed/Storage	386SX/25 2MB 80MB Super VGA \$1,259	486SX/25 4MB 120MB Super VGA \$1,699	486DX/33 4MB 170MB Super VGA \$2,099	486DX2/50 4MB 320MB Ultra VGA \$2,749	486DX2/50s 8MB 320MB Ultra VGA \$3,149
