

Dell Latitude D500

Dell has taken everything that's made the Latitude™ C-Family a big success and taken it to the next level.

Continuing with the Latitude core values of commonality, consistency and compatibility, Latitude D-Family will embark on a new generation of technologies, form factors, intuitive designs and innovative common docking and module solutions. Dell Latitude notebooks offer mobile computing solutions designed to be customized for business and the Latitude D-Family is no exception.

The Latitude D500 is designed for users who require essential productivity and dependable quality at a value price. Even with its affordable price, the D500 doesn't skimp on features, using the Intel® Pentium® M processor and a bright 14.1" XGA Active Matrix (TFT) display. The D500 also offers Intel Centrino™ Mobile Technology featuring the Pentium M processor, the 855GM chipset and Intel® Pro Wireless MiniPCI card.

Intuitive Form Factors & Design

The Latitude D500 is designed to be both easy to use and easy on your budget. Located on the side of the unit, the modular bay's innovative latch is designed for easy insertion and removal of the various D-Family module options. Protecting your investment is important and the D500's internal magnesium alloy frame helps to provide structural rigidity to protect what's inside your notebook.

Docking Solutions

Latitude's ingenious D-Family docking solutions allow you to view your system at a whole new level. The Latitude D/View notebook stand elevates the notebook's LCD to a more comfortable viewing position, replacing the need for an external display and offering the convenience of an all in one desktop solution. Enjoy the convenience of D-Family docking with the Latitude D/Port Advanced Port Replicator¹.

Dell Wired and Wireless Communications Solutions

Every Dell Latitude D500 features a wireless networking mini-PCI card, 56K² V.92 capable modem and 10/100 wired network card as part of the standard offering. Included in the wireless standard offering is a choice of either the Dell TrueMobile™ wireless LAN solutions or the Intel® Pro Wireless MiniPCI card. The Dell Latitude D500 also features an optional TrueMobile™ 300 integrated Bluetooth solution.

Performance and Value with Intel® Pentium® M Processor and 855GM Chipset

The Dell Latitude D500 features the latest Intel® Pentium® M processors, which utilize a new micro-architecture incorporating a power-optimized 400MHz processor system bus and aggressive clock gating designed for higher performance & lower power. These processors also feature 1 MB of power managed cache and enhanced Intel SpeedStep® Technology. The D500 also incorporates the Intel® 855GM chipset, which offers integrated graphics capability with 4X AGP and USB 2.0 support. The integrated graphics utilizes the system memory as a shared resource for both system memory and graphics needs, dynamically allocating a portion of the memory to graphics based on the graphic demands of the applications currently in use. Up to 64MB of memory can be allocated to graphics, and with integrated video acceleration, you can view high quality, full frame rate DVD on your notebook or connected external display with exceptionally low power consumption.

International Service and Support³

The Dell Latitude D-Family offers you a superb selection of notebooks, each of which is designed to exceed your expectations and backed by Dell's exceptional service and support. The D500 comes standard with 1-year Next Business Day On-site⁴ service and International programs across 40 countries.
