

# Dell Latitude D-Family Docking

Expand your desktop without expanding your desk. Compatible with the D-Family Notebooks' and media modules, the new Latitude docking solutions provide the versatility you've been looking for.

## D/Port Advanced Port Replicator

Maximize your work space while expanding your desktop with the Latitude D/Port. The D/Port provides convenient cable management and alleviates the need to re-connect peripherals each time you return to your desk. One simple connection provides access to 15 expansion ports including: VGA, DVI, S-Video, Parallel, Serial, PS/2 (x2), Headphone, S/PDIF, USB 2.0 (x4), RJ-11, RJ-45 and D-bay Connector. In addition, obtain work space flexibility and viewing expandability with the D/Port dual-display support.

## D/Dock Expansion Station

Obtain exceptional expandability with the D/Dock Expansion Station featuring a media bay, which supports Latitude D-Family Media Modules and media module battery charging, as well as a half-height industry standard PCI slot. One simple docking connection provides access to 15 expansion ports including dual-display support.

## D/View Notebook Stand

The Latitude D/View notebook stand, in combination with the D/Port, allows you to view your system at a whole new level by elevating the notebook's LCD to a more comfortable viewing position - replacing the need for a costly external display. This sleek, all-in-one desktop solution allows you to minimize desktop space by approximately 40%. The convenient cable management channel is ideal for use with your full-sized keyboard and mouse in addition to all of your other essential peripherals via the 15 ports available on the D/Port.

## D-Family Monitor Stand

For use with the D/Dock and D/Port, the D-Family Monitor stand offers a compact, space saving form factor with customizable D/Port docking positions. The open side design allows easy access to media bays and ports on your notebook.
