The ActionNote 800 keeps you plugged in at home, at the office, and anywhere in between.

At home: a portable multimedia solution.

At the office: doubles as a desktop.

Anywhere: a cellular fax.

On the surface, it looks like a sleek, 486 color notebook that emphasizes style and function. Which it is.

Look again, and it becomes whatever you want it to be. EPSON's ActionNote™ 800 series has the flexibility and power to take on many different roles. Quickly and easily.

At home, it can be a multimedia solution ready to inform and entertain the entire family. Use it to catch up on office work, help with the kids' reports, or do on-line shopping.

On the road, it becomes a communications center to keep you plugged in wherever you are. Insert a PCMCIA card, plug in the cellular phone, and it sends and receives data and faxes in a snap. An optional internal 14.4 data/fax modem is also available.

At the office, it doubles as a desktop. Just plug it into the ActionPort™ replicator and you're connected to your monitor, keyboard, printer and other peripherals, even your office network! It's easy; no hassling with plugs and cables each time you move from road to desk.

Talk about having the world at your fingertips.

Our exclusive ActionPoint™ pad features the most advanced pointing device in the industry: your finger. Plus, the slim line design includes a comfortable palm rest, keyboard and extra large screen. With EPSON's advanced, ergonomic approach to design, the ActionNote series takes the notebook to an entirely new level.
