

# *Mercury*

## *Progressive by Design*

the **BRICK** computer co.

The Mercury notebook computer is the next generation and natural progression of our award winning Elite2. Utilizing Magnesium Alloy as the main element of its composition means you are presented with a Notebook of extreme strength and durability, without an increase in weight. At 6.8 pounds and integrating most every option available today, we have to wonder how we can top this.

Magnesium alloy is 20 times the strength of plastic and has, until recently, only been used in military notebooks. Now the internal subsystem of the Mercury is protected by it, ensuring complete stability now and in years to come as well as reducing the need for a fan. An advanced polymer is then used as the outer assembly, providing a look and feel second to none.

The Mercury range utilizes Intel uPGA2 (micro PGA 2) processors; from an entry level 600MHz Celeron fully upgradeable right through to the Pentium III 1GHz. The Mercury integrates mobile processors featuring SpeedStep technology, not a desktop part like some others.

Processing speed is only part of the story. The Mercury also incorporates a 3 dimensional full duplex sound system, specifically designed for speech recognition. For security the Mercury has a removable hard disk, password protection and a Kensington lock anchor that is secured directly into the Magnesium alloy superstructure. Most other's anchors are attached simply to a plastic casing requiring very little effort to break free.

Connectivity is a must for today. The Mercury comes standard with an internal V.90 56k fax modem and also a 10/100 LAN adapter. Whether connecting to your home broadband connection or plugging into your corporate LAN, the Mercury is ready.

We think you'll agree, the Mercury defines the quality and durability you should expect in a laptop. Backed by a 15-day money back guarantee, a 60 day satisfaction guarantee, and a 1-year warranty, the Mercury sets the standard for quality in a notebook.

The Brick Computer Company, Inc., 461 Boston Street, Unit D3, Topsfield, MA 01983  
Sales: 1-800-THE-BRICK Monday through Friday 9am to 6pm EST  
Tel: (978)213-9907 Fax: (978)213-9909  
Web: [www.brickcomputers.com](http://www.brickcomputers.com) Sales: [sales@brickcomputers.com](mailto:sales@brickcomputers.com)

### **PROCESSOR**

Intel uPGA2 Processors, Including Mobile Celeron Series, and Pentium III processors to Speedstep 1GHz

### **CORE LOGIC**

Intel 440BX  
256k SRAM pipeline burst L2 cache  
66MHz PCI bus supports ACPI

### **DISPLAY OPTIONS**

14.1" XGA 1024x768 Active Color TFT Supports 16 million Colors

### **HARD DISK**

9.5mm Drives, 10, 20, and 30GB. 32bit PCI Bus IDE with Ultra DMA support, removable main Hard Drive

### **8x DVD ROM**

8x DVD ROM Internal, Secondary Master (Optional 24x CD ROM)

### **FLOPPY**

3.5" 1.44 MB Internal Floppy Drive

### **MEMORY OPTIONS**

2 slots of 144 pin SO DIMMs 32, 64, 128, or 256MB SDRAM modules. 32 to 512MB Configurations.

### **WEIGHT**

6.8 pounds with Battery, Floppy, & CDROM

### **SIZE**

12.1" (w) x 10.5" (d) x 1.5" (h)

### **LAN / MODEM**

Internal 56K V.90 Fax / Data Modem (Lucent LT)  
Internal 10 / 100 LAN Adapter (Intel 8255 Based)

### **FIREWIRE**

Digital 1394 Firewire Port, 4-Pin

### **PC CARDBUS SLOTS**

2 Type II or I Type III 32bit CardBus Slots  
Zoom Video Support

### **KEYBOARD/TOUCHPAD**

88 key keyboard with Windows 95/98 keys  
Advanced Synaptics Touch Pad

### **VIDEO CONTROLLER**

ATI Rage Mobility M1 / M3  
8 MB Video RAM  
Maximum External Color SXGA Monitor up to 1280 x 1024 at 32bit color and 75Hz  
Simultaneous LCD/CRT or LCD/TV operation, software selectable under Windows 98  
Software MPEG2 Decoding  
Directly Supports NTSC and PAL TV Out via S-Video

### **PORTS**

1 16550 UART Serial Port  
1 EPP/ECP Parallel Port  
External SVGA  
External PS/2 Keyboard  
Speaker Out  
Microphone In  
4 MBPS Fast IR port  
Dual USB ports  
Port Replicator port  
S-Video Out port

### **SOUND**

Built in stereo speakers, ESS Alegro Sound System, Sound Blaster Pro and Microsoft Sound System compatible

### **SOFTWARE**

Microsoft Windows98 2<sup>nd</sup> Edition  
McAfee AntiVirus  
Optional Windows Millennium  
Optional Windows 2000

### **STANDARD ACCESSORIES**

Worldwide compatible 100/240v AC Battery Charger/Power Supply

### **OPTIONAL ACCESSORIES**

Spare AC Adapter  
Auto / Air Travel Adapter  
Spare LION Battery  
Port Replicator

### **PORT REPLICATOR**

Serial Port, Parallel Port, VGA Port, Dedicated Mouse and Keyboard Ports, 2 USB Ports, Games Port, and Power Connector

### **BATTERY**

Lithium ION 5400maH  
Typically 4 hours operating life each battery

### **AC POWER**

Voltage: 90-264 VAC Frequency: 50-60 Hz

### **BIOS**

AMI PnP BIOS re-programmable 256k flash, full APM support

### **ENVIRONMENTAL**

Operating Temp: 32 to 104 F  
Non-Operating: -14 to 120 F  
Shock: 2G 10ms Duration

### **REGULATION**

UL, CSA, TUV, CE, FCC class B

### **WARRANTY**

1<sup>st</sup> Year Direct with The Brick Computer Company  
Optional Extended Warranties Available

### **ENHANCED WARRANTIES AVAILABLE**

2<sup>nd</sup> Year Coverage  
3<sup>rd</sup> Year Coverage  
Next Day Replacement  
Next Day Loaner  
Rental Units
