

MicroLite

Destined For Gold... Slim, Trim, and Fast

the **BRICK** computer co.

The MicroLite combines leading edge technologies like magnesium alloy construction and the newest and fastest Intel micro PGA (uPGA) processors. Featuring a 13.3" 1024x768 XGA TFT display, Intel Pentium III 800 Processor (upgradeable to 850), 128MB RAM, 10GB Hard Drive, 24x CD ROM, LION Battery, Windows98 2nd Edition, Internal Fax/Data Modem, and an internal 10/100 LAN Adapter.

At only 4.2 pounds, and measuring 12.0" (w) x 9.25" (d) x 1" (h), the MicroLite is a single spindle superstar. Add on the optional UltraBase and you have an untypical three spindle design only 2" thick and 7.2 pounds but with the flexibility to convert to a lightweight road warrior.

The ATI Rage Mobility-M1 graphics processor is teamed up with 8MB of VRAM and features 2x AGP. Standard is the ability to drive an external monitor, as well as supporting simultaneous display.

Any portable would not be complete without some form of connectivity. The Brick has all the bases covered, whether you are on the road, in your office, or in your home, our 56k and 10/100 feature is standard equipment. The best part is that both are internal to the unit itself, not in the UltraBase, but in the main body of the computer.

Other standard features are an integrated touchpad with a dual set of mouse buttons, on board sound system, security port, AC adapter/charger, 85 touch-type Keys, 1 PCMCIA slot, 1 USB port, and a basic carrying case.

When in the home or office, the optional UltraBase provides a happy home for your MicroLite. The UltraBase allows the installation of 2 devices. In the left side bay you can install a standard 1.44MB floppy drive, a 120MB LS-120 drive, or a 100MB Zip drive. In the front bay you can install either the 24x variable speed CD Rom, 8x variable speed DVD ROM, or the 4x4x24x CD R/W Drive. The UltraBase will also accept a second battery for increased battery life.

The MicroLite's device port allows the floppy, LS-120, Zip, CD, DVD, or CD R/W to be connected via the supplied cable.

We think you'll agree, The MicroLite will make your day, and is of course backed by our 15-day money back guarantee, 60-day satisfaction guarantee, and a 1-year warranty.

Specifications

PROCESSOR

Intel Pentium III Processors 500 to 850

DISPLAY OPTIONS

13.3" TFT XGA 1024x768
True Color Display

HARD DISK

Removable 9.5mm 6 to 30GB Hard Drives
Ultra DMA Support

CD ROM

Standard 24x Variable Speed CD ROM
Optional 8x Max Variable Speed DVD ROM
Optional 4x4x24x CD R/W

FLOPPY

Optional 3.5" 1.44 MB Floppy Drive
Optional 3.5" 120 MB LS-120 Drive
Optional 3.5" 100MB Zip Drive

MEMORY

64MB SDRAM upgradeable to 320MB

WEIGHT

4.2 Pounds with Battery
7.2 Pounds with UltraBase Attached and Floppy Drive
and CD ROM Installed

SIZE

Footprint - 12.0" (w) x 9.2" (d) x 1.1" (h)
With Base - 12.5" (w) x 10.0" (d) x 2.0" (h)

PCCARDBUS SLOTS

Texas Instruments PCI 1410 Cardbus Controller
1 Type II Cardbus slot

KEYBOARD/TOUCHPAD

85 key keyboard with Windows 95/98 keys
Advanced Touch Pad

VIDEO CONTROLLER

ATI Rage Mobility-M1
AGP Graphics Processor
8MB Video RAM
DVD Decoding on Chip

PORTS

1 16550 UART Serial, 1 EPP/ECP Parallel Port
External SVGA, External PS/2 Keyboard
Speaker Out, Microphone In, 4 MBPS Fast IR Port,
Single USB port, UltraBase Port, Security Port, 1 PC
Card, 1 Device Port

MODEM / LAN

Standard Lucent Internal V.90 56k Modem with
support for Windows98, Windows NT, and Windows
2000
Standard Intel Based 8255 PCI 10/100 LAN Card
