

HP COMPAQ 6710S NOTEBOOK PC

BEYOND THE BASICS

Affordable, 15.4" widescreen, Intel processors

HP recommends Windows Vista™ Business

Work better, not harder

The affordable, thin and light HP Compaq 6710s Notebook PC goes beyond the basics by offering an impressive combination of features including Intel® Core™2 Duo Processor, making it an excellent price-for-performance package.

Broaden your perspective

Select the right 15.4-inch diagonal widescreen display that best suits your needs – either a WSXGA+ WVA (wide-viewing angle) anti-glare display or a WXGA with your choice of an anti-glare display or HP BrightView display.

Technology to get the job done

Experience new levels of system responsiveness when running multiple applications and smarter battery performance designed to help extend mobility with Intel® Core™2 Duo Processors.² The optional DVD+/-RW SuperMulti DL LightScribe Drive³ makes your storage media stand-out with custom labels that you can burn directly to your disc.

Stay connected on the go

The HP Compaq 6710s helps you stay connected where you need to work by offering Wi-Fi Certified

WLAN⁴ and integrated Bluetooth® wireless technologies. With Wi-Fi Certified WLAN, you can send and receive e-mails or access the Internet – at work, at home and at your favorite hotspots; while Bluetooth® technology provides wireless short-range communication or connectivity between other Bluetooth devices such as printers, mice and headsets.

HP Professional Innovations help you focus on your business

Built to protect. An array of multi-layered, customizable security solutions help defend your network, your applications, and your data. Device Access Manager for HP ProtectTools controls ports and removable storage devices on your system in order to prevent unauthorized users from transferring or removing your data.

Built to simplify. Boost your productivity while maximizing simplicity with features such as Smart AC Adapters which make it easier to share power.

Built to last. Reliable features such as HP DriveGuard so your notebook can go the distance.

HP COMPAQ 6710S NOTEBOOK PC

1. Certain Windows Vista product features require advanced or additional hardware. See <http://www.microsoft.com/windowsvista/getready/hardwareregs.msp> and <http://www.microsoft.com/windowsvista/getready/capable.msp> for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit www.microsoft.com/windowsvista.com/upgradeadvisor. 2. Dual Core is a new technology designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. 3. Do not copy copy-right protected materials. Intended for creation and storage of your original material and other lawful uses. Double Layer discs can store more data than single layer discs. Double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players. LightScribe creates a monochrome image. LightScribe media required and sold separately. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 GB Double Sided – Version 1.0 media. 4. Wireless access point required and is not included. Availability of public wireless access points limited. Wireless Internet use requires separately purchased Internet service contract. 5. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8GB (for XP) and 10GB (for Vista) of system disk is reserved for the system recovery software. 6. Shared video memory (UMA) uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by programs. 7. HP Fast Charge recharges your primary battery up to 90% within 90 minutes when the system is off. HP Fast Charge does not apply to 9 cell primary and 12 cell Ultra Capacity batteries. 8. Sold separately or purchased as an optional feature.
