

*ThinkPad: The next generation*

## ThinkPad 760C/CD Notebooks

---

### Highlights

---

- **This all-new family of high-performance, advanced-function notebooks gives you a virtual office you can take anywhere...with virtually no limits on what you can do**
- **You won't believe your eyes! IBM's new 12.1" diagonal SVGA display—the largest size on any notebook—makes it far easier to see far more of your work**
- **Deliver awe-inspiring presentations on your ThinkPad® 760CD, thanks to Total ImageVideo® with MPEG 2<sup>1</sup> support, resonant TheatreSound® stereo audio and 4X CD-ROM drive**
- **Double your battery life, double your storage! Replace the diskette/CD-ROM drive with a second Li-Ion battery or a second hard drive**
- **Choose Windows® 95 or OS/2® Warp-Windows 3.11 models —both packed with popular productivity software**

---

### ThinkPad 760 family at a glance

---

90MHz or 120MHz<sup>2</sup> Pentium® processor

---

12.1" or 10.4" SVGA Black Matrix TFT display

---

8MB RAM expandable to 40MB

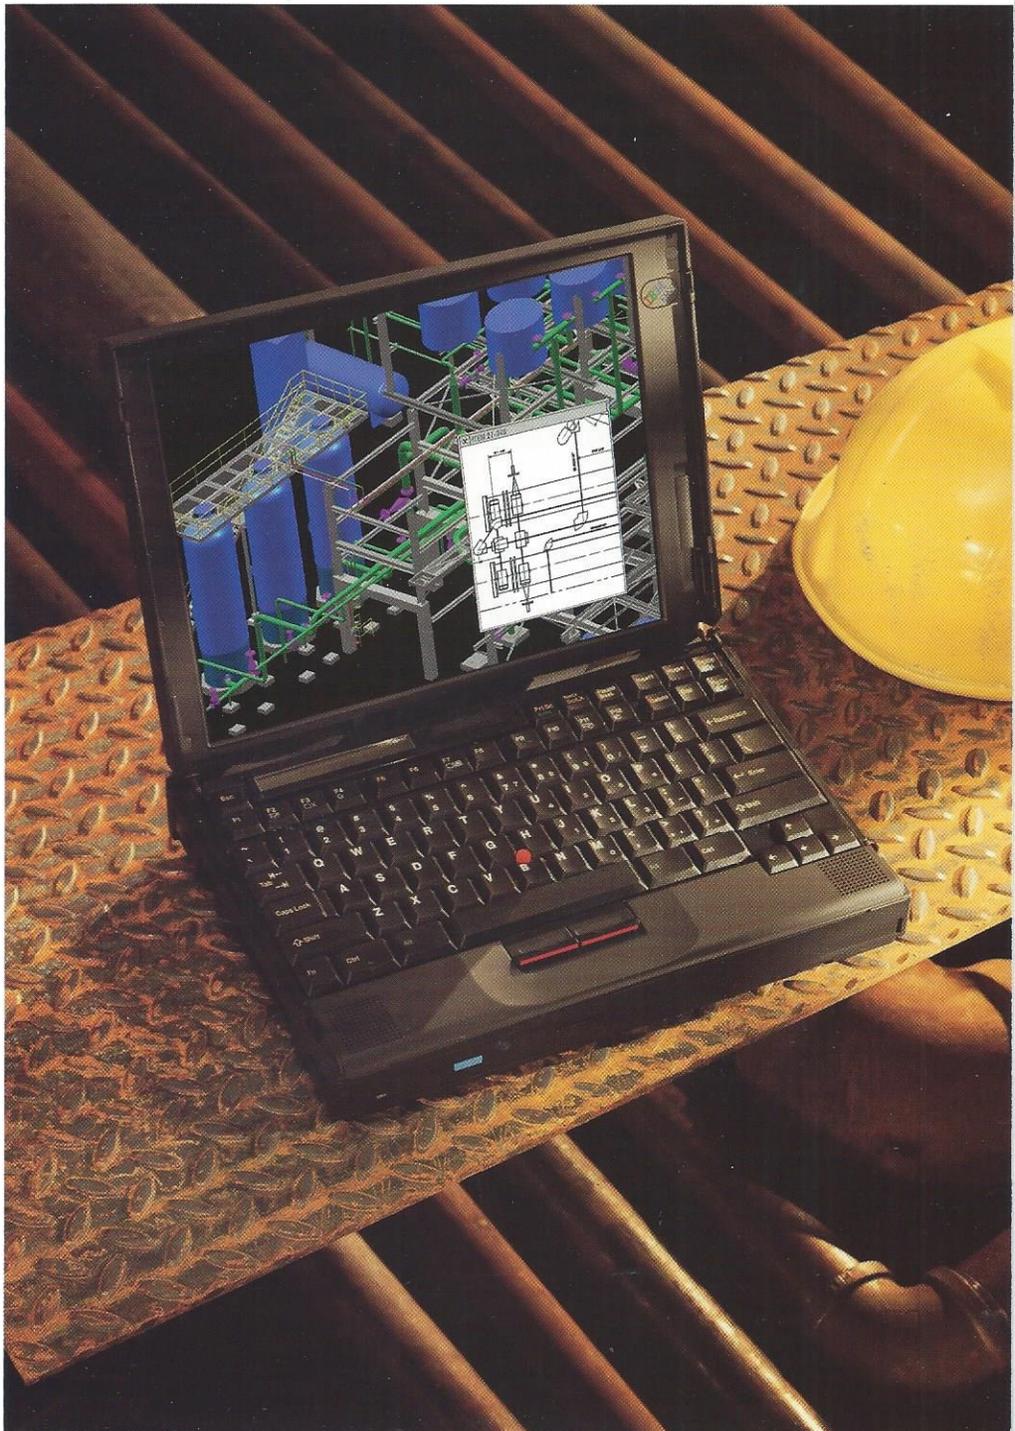

---

720MB<sup>3</sup> or 1.2GB hard drive

---

28.8Kbps data/fax modem

---

### When only the best will do

Take hold of an IBM ThinkPad 760 notebook. Suddenly you're transported to a whole new dimension in portable personal computing. A realm essentially without limits on how fast you can work...on the size and complexity of your applications...on the comfort and ease you'll feel with this elegant, ergonomic marvel in your hands.

Never before has there been a notebook this flexible, this versatile...this personal. It's the point where "high tech" and "high touch" come together to create a machine that responds to your way of working. One you can equip to meet your needs of the moment...and change as often as you require.

### The bigger picture

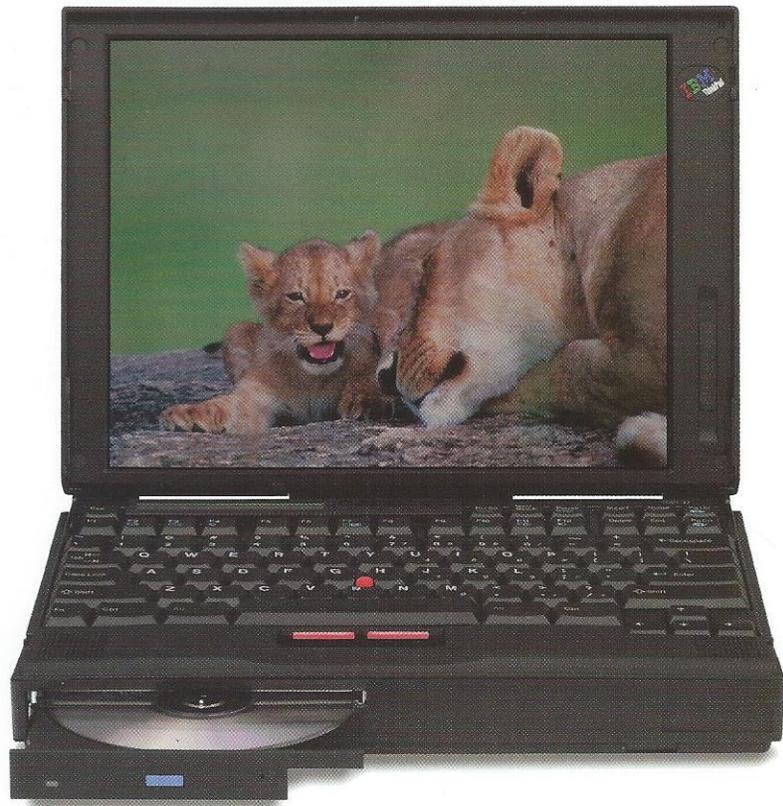

Lift the lid on the biggest display you'll see in any notebook today...an astonishing 12.1-inch diagonal. This revolutionary new high-resolution (800 x 600) SVGA Black Matrix TFT is 35% larger than a 10.4-inch diagonal VGA display...with 56% more information on the screen. In fact, our sharp, accurate and flicker-free 12.1-inch LCD displays are so easy to see, you may never go back to a desktop monitor again!

### Designed for comfort...

How do you make a great design even better? How about a ThinkPad with a built-in palm rest? And that's just for starters! The keyboard itself automatically tilts up to a comfortable typing position when you lift the lid.

The easy-to-read system-status LCD keeps battery life right before your eyes. Our exclusive software-enhanced TrackPoint III® integrated pointing device responds accurately to the lightest

fingertip touch. And to help make your ThinkPad effortless to use, we've built in an easy way to preset configurations for multiple working environments...plug-and-play support for PCMCIA™ cards... and preinstalled software for using

### ...built for speed

With blistering performance all around—high-speed Pentium processors, external cache, new super-quick boosted video subsystem, Enhanced IDE hard drive connections—this notebook is finely tuned to breeze through demanding applications, complex graphics, massive amounts of data. You'll multitask with ease!

### Full-tilt multimedia

Now you can take the persuasive power of multimedia to the outer limits, thanks to Total Image Video with MPEG 2<sup>1</sup> support—a ThinkPad 760CD exclusive. Imagine adding MPEG 2 video to your sales presentations. Or showing MPEG 1 and standard .AVI files at full screen, with smooth, realistic playback. Capture video files or still images directly from a VCR or camera. Plug your ThinkPad 760CD into a color TV and wow a roomful of people. Rock your audience with

TheatreSound wavetable music and sound effects. And do it all quickly and efficiently with a built-in 4X CD-ROM.

### The all-in-one traveling office machine

Whether you're looking for a constant traveling companion or a desktop machine you can carry home or take on the occasional road trip, the ThinkPad 760 family is an all-around winner. Lightweight and long-working—battery life can range from an astounding 6.2 to 18 hours<sup>4</sup> or longer with two Li-Ion batteries—these notebooks are packed with function that can help you get your work done quickly and effectively. Dual infrared ports for wireless printing, for example. A high-speed 28.8Kbps modem ideal for surfing the Net. Voice-over-data support<sup>5</sup> that you can use to hold a conversation and share files<sup>6</sup> over a *single* phone line. Back at the office, plug into your network and peripherals with one of four desktop expansion solutions. And for mobile management at its best, we've even preinstalled NetFinity™ to provide detailed system information and simplify support from remote locations.

## ThinkPad 760 standard features

	ThinkPad 760CD	ThinkPad 760C models

### Performance

- Dual-processor architecture
  - 90MHz or 120MHz<sup>2</sup> Intel® Pentium processor with 256KB L2 cache
  - IBM Media Processor for independent handling of audio and communications
- 8MB RAM standard, upgradeable to 40MB with new SO DIMMs
- Fast new accelerated VESA local-bus video subsystem with 1MB VRAM
- Enhanced IDE hard-disk controller

### Total Image Video with MPEG 2 support (760CD)

- Hardware-assisted motion video acceleration for fluid full-screen playback of MPEG 1, MPEG 2<sup>1</sup> and Video for Windows files
- Video and still image capture; video overlay; NTSC/PAL video out to TV
- Video in/out jacks, MIDI/joystick port

### TheatreSound

- 16-bit stereo wavetable audio with Sound Blaster® support and MIDI and .WAV support; built-in microphone and high-quality stereo speakers; microphone and headphone jacks; manual volume control

### Integrated high-speed infrared

- Two infrared ports for fast, easy wireless printing, file transfer and file synchronization between your notebook and other IrDA-compliant notebooks, printers, desktops and electronic organizers
- IrDA compliant; maximum data rate 1150Kbps; supports IBM, HP® and Sharp® modes

\*Simultaneous use of CD-ROM and FDD requires optional FDD External Attachment Kit.

### Communications

- 28.8Kbps data/fax modem with voice-over-data; software upgradeable
- Full-function computer telephony including full-duplex speakerphone, digital answering machine, remote message retrieval

### UltraBay diskette drive bay

- Replace diskette or CD-ROM drive with a second battery or second hard drive
- Accommodates optional wireless modems, PCMCIA Adapter

### PCMCIA support

- PCMCIA slots<sup>9</sup> for two Type I/ II PC Cards or one Type III
- IBM PC Card Director® V 3.0 utility supports more than 250 cards

### Standard I/O interfaces

- External SVGA monitor (256 colors at 1024 x 768), serial (UART 16550A), Enhanced Parallel (ECP), PS/2®-style mouse/keyboard, and RJ11 (telephony) ports
- Expansion bus port for docking
- External FDD port (760CD only)

### Keyboard/pointing device

- Advanced TrackPoint III pointing device with QuickStop response and non-slip cap
- New full-size lift-up keyboard automatically tilts for increased comfort; built-in palm rest
- Familiar 85-key ThinkPad layout has 12 standard PF keys, separate inverted-T cursor control keys, drag-lock buttons, and Fn "hot" key to system functions

### Power supply/power management

- Intelligent rechargeable Li-Ion battery pack, with support for dual Li-Ion battery packs
- Compact 35W worldwide auto-sensing AC adapter with three-prong plug
- 1.5-hr. (90%) to 2.5-hr. (100%) quick charge; 2.0 to 3.0 hrs. during operation<sup>4</sup>
- Adaptive Power Management function automatically changes device and suspend timeout values according to actual usage
- Standby, suspend, safe suspend and hibernation modes
- LCD fuel gauge for one or both batteries
- Nondisruptive battery exchange

### Security

- Slot for Kensington MicroSaver® cable lock
- Power-on, system, supervisor and hard drive passwords

### Choice of operating systems

- Microsoft® Windows 95
- SelectaSystem: Choose between OS/2 Warp, Windows 3.11 and IBM PC DOS 7.0 (all preinstalled), or choose OS/2 Warp and run multiple applications for all three at the same time; includes selected OS/2 Bonus Pak applications

### Preinstalled software<sup>9</sup>

- Both operating system models come preloaded with an extensive selection of personal productivity programs and software for ThinkPad advanced features

### Operating systems supported

- IBM PC DOS 7.0/J7.0; MS DOS 6.22
- OS/2 Warp; OS/2 Warp with Win-OS/2 (SelectaSystem); OS/2 Warp-J; OS/2 2.11
- Windows 95; Windows for Workgroups 3.11; Windows 3.11/J3.1

## Help is just a phone call away

Although you may never need it, you have the peace of mind that comes with knowing that your ThinkPad 760 is backed by IBM's three-year warranty with International Warranty Service<sup>10</sup> and ThinkPad EasyServ<sup>®</sup> door-to-door courier repair service.<sup>11</sup> Optional overnight EasyServ repair is also available.

What's more, customer support is just a phone call away with IBM's world-class HelpWare.<sup>®</sup> It includes around-the-clock toll-free hardware support (excluding some holidays) at no extra charge during your warranty period... plus 60 days of preinstalled operating system software support. And you can take advantage of IBM's Online Housecall remote diagnostic service. With your ThinkPad 760's voice-over-data function,<sup>5</sup> a technician can talk to you *and* work with your notebook over a *single* phone line.

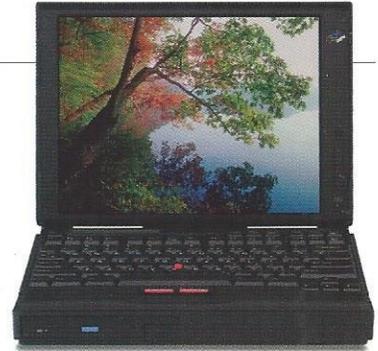

## ThinkPad 760 options and accessories

- PCMCIA wireless modems, network adapters, hard-disk and solid-state storage, external CD-ROM drive, SCSI
- 120MHz<sup>2</sup> Pentium processor upgrade
- Memory upgrades: 8MB or 16MB SO DIMMs
- ThinkPad 720MB, 1.08GB or 1.2GB (760CD only) hard disk drives; Second HDD Adapter Pack
- Li-Ion and NiMH battery packs; AC adapters; Travel Quick Charger

- ThinkPad Dock II; ThinkPad Dock I; Port Replicators (with and without PCMCIA); monitor, keyboard, keypad, mouse, display stands for Dock I/II, all available in black
- Carrying cases in leather and nylon
- ThinkPad Proven<sup>®</sup> third-party mobile computing products, services and technologies tested, warranted and supported by the manufacturer to ThinkPad notebook compatibility standards.

<sup>1</sup>Supports MPEG 2 Half Horizontal Resolution (HHR).

<sup>2</sup>Will be supported when available from Intel.

<sup>3</sup>MB means million bytes and GB means billion bytes when referring to hard-drive capacity.

<sup>4</sup>Accessible capacity varies.

<sup>5</sup>Battery life and recharge times will vary based on applications, features, power management and other customer preferences. Measured with CD-ROM drive inactive (760CD). CD-ROM usage may substantially reduce battery life.

<sup>6</sup>Planned availability 4Q95.

<sup>7</sup>User-supplied software required.

<sup>8</sup>Actual weight may vary due to vendor components and manufacturing processes.

<sup>9</sup>ThinkPad 760 notebook products conform to the PCMCIA PC Card Standard Release 2.1, and PCMCIA Card and Socket Services Specification Release 2.1, dated July, 1993.

<sup>10</sup>Terms, conditions, licensing agreements and warranties of the non-IBM manufacturer, supplier or publisher apply. Limited subscription time and/or usage fees apply to selected software titles.

<sup>11</sup>Three-year limited warranty includes International Warranty Service in those countries where IBM or IBM resellers sell and service ThinkPad products (registration required). For terms and conditions or a copy of IBM's limited warranty, call 1-800-772-2227 or in Canada 1-800-465-7999.

<sup>12</sup>Available only in North America at no additional charge during warranty period.

IBM will continue to enhance products and services as new technologies emerge. IBM, therefore, reserves the right to alter specifications and other product information without prior notice.

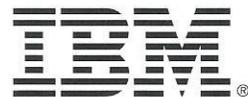

References in this publication to IBM products and services do not imply that IBM intends to make them available in all countries in which IBM operates.
