

At the forefront in new technology

ThinkPad 760 Notebooks

Highlights

- **The acclaimed family of state-of-the-art notebooks that offers the pinnacle in mobile and desktop performance, investment protection, price/performance alternatives and flexibility**
- **Choice of Pentium processors—including very fast 133MHz models—large, high-resolution 11.3" and 12.1" SVGA displays and advanced removable hard drives, upgradeable up to 2.4GB² with second drive**
- **PCI architecture combined with new high-speed PC CardBus technology for optimized system, video and peripherals performance. The complete 16-bit and 32-bit PC Card solution**
- **New modular PCI docking solutions offer full PCI desktop functionality and compatibility with existing docking solutions**
- **Tilt-up keyboard, integrated palm rest and IBM's exclusive UltraBay for easy customization**
- **Fast IBM Media Processor for telephony functions, 28.8Kbps data/14.4Kbps fax modem with DSVD (760E/ED) and stereo audio**
- **Plus Lotus SmartSuite at no additional cost!**

ThinkPad®

ThinkPad 760: Think about it...

Think about ThinkPad 760 as the perfect blend of design and advanced technology. Think about working in an environment where speed is the norm, not the limitation. About the ability to exploit applications instead of worrying about the storage they consume. About the incredible multimedia power that's never more than a keystroke away. About flexible machines easily upgraded to satisfy future growth. Know that there's an eminently usable notebook computer that provides innovative, reliable management of information. Anywhere. Anytime.

Think IBM ThinkPad 760.

Whether you want pure performance or a combination of performance and affordability, there's a ThinkPad 760 that's just right for your needs and your budget. Whatever model you choose, be assured ThinkPad 760 consistently delivers top-notch, advanced hardware solutions you want to meet your multi-faceted needs.

ThinkPad 760: See it

A quick look tells you ThinkPad 760 is no vanilla box. Sleek SVGA models with a huge 12.1" display are easy to transport and easy on the eyes. 11.3" DSTN SVGA models that are crisp and clear. Both make you forget the day when seeing detail on a notebook display required a degree in squinting.

Go ahead. Crank it up. Watch as the high-speed Pentium processor, the PCI architecture, PC CardBus technology, L2 cache on 760E/ED models and EDO memory combine to propel you quickly to new levels of performance. And, with ThinkPad 760ED, enjoy—thoroughly enjoy—multimedia features like you've never seen on a notebook before. High-speed 4X CD-ROM for demanding multimedia applications. Total Image Video for smooth, full-motion, full-screen playback of MPEG-1 and MPEG-2^s files. The 64-bit graphics engine that gives you the ability to capture still images from VCRs and video cameras for the ultimate in video graphics performance. Instead of dreaming about stunning visual presentations, you can make them happen now. With ThinkPad 760.

ThinkPad 760: Hear it

Enliven your visual presentations through the flexible, upgradeable IBM Media Processor (760E/ED). Stunning TheatreSound for business audio, Sound Blaster Pro, MIDI and .WAV support. Full-telephony functions—full-duplex speakerphone, digital answering machine and remote message retrieval. Digital simultaneous voice over data (DSVD) capability over a single phone line. And a top-of-the-line 28.8Kbps modem that can connect you to the Internet for some of the quickest and best surfing this side of California.

ThinkPad 760: Feel it

Go ahead. Lift it up. Feel the lightweight yet rugged construction. Open it up. Notice how the keyboard automatically tilts to a comfortable typing position. And how your hands settle easily onto the palm rest. Run your hands over the familiar, full-size keyboard. Move the cursor smoothly with the integrated TrackPoint III pointing device. Want more? OK, lift the keyboard to access the UltraBay, where you can add a second battery or hard drive, or replace the diskette drive with a CD-ROM drive. Add a wireless modem. Customize and enjoy the sheer power at your fingertips.

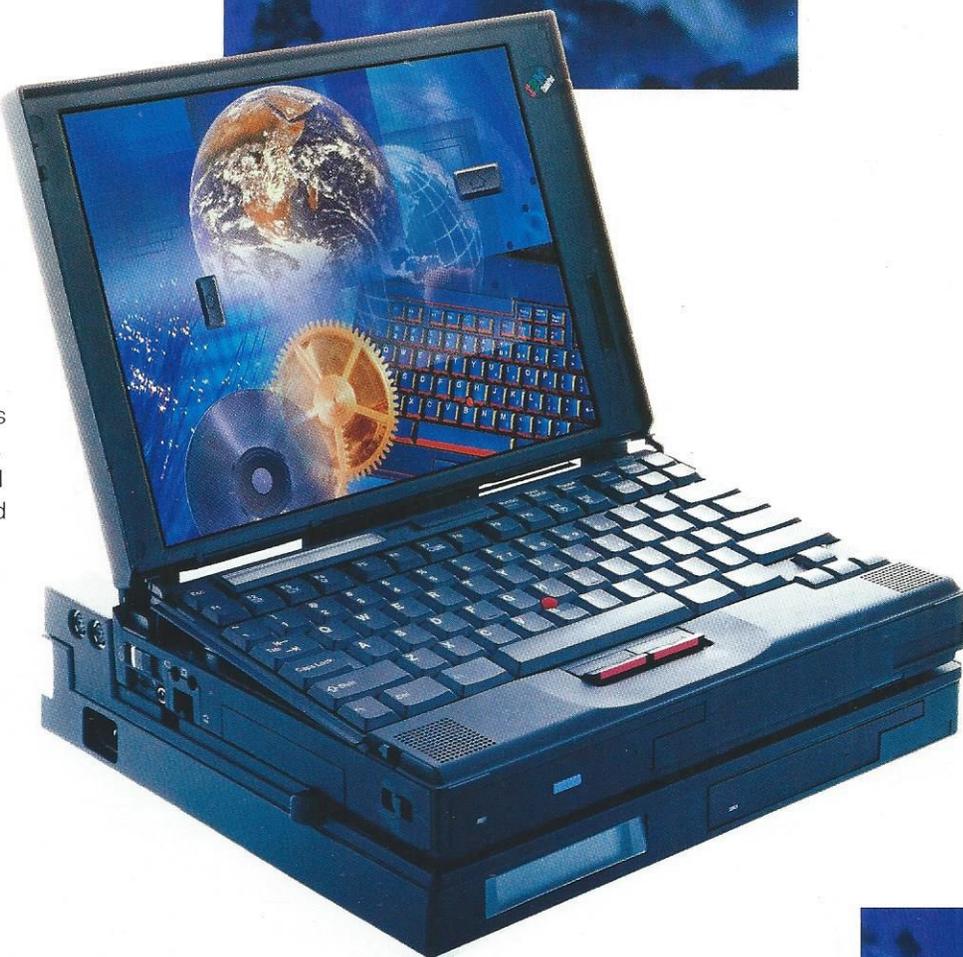

ThinkPad 760: Dock it

Slide ThinkPad 760 into SelectaDock, IBM's all-new, all-star docking solutions. Get ready for desktop functionality you never thought possible with a notebook.

Start with the SelectaDock Base Model I and get port replication for cable management and access to peripherals, plus system security. Slip the Base Model into SelectaDock I, which adds PCI, ISA and PC CardBus slots that thrive on high-performance. There's also an UltraBay for additional upgradeability. With ThinkPad 760 and our new docking stations, you have a single computer that meets all your needs—in or out of the office.

ThinkPad 760 and SelectaDock. It's a winning combination.

Performance

- 133MHz, 120MHz and 100MHz Intel Pentium processors with 256KB L2 cache (760E/ED)
- 8MB and 16MB EDO RAM models, upgradeable to 72 and 80MB EDO RAM
- PCI Bus, PC CardBus for high-speed operation, enhanced video and graphics
- 64-bit graphics engine with 2MB 64-bit video memory (760ED)
- Removable 810MB, 1.08GB and 1.2GB hard drives
- Enhanced IDE hard-disk controller

Docking

- Two new SelectaDock models: SelectaDock Base Model I upgradeable to SelectaDock I
- SelectaDock I supports PCI or ISA slot, and PC CardBus for access to PCI peripherals
- New PCI-based systems are backwards compatible with existing ISA-based docking stations
- Optional cable lock for security

UltraBay

- Replace diskette drive or CD-ROM drive with a second battery or second hard drive
- Accommodates optional wireless modem, PC Card adapter
- Permits sharing of components between ThinkPad and SelectaDock

Integrated 1.15Mbps high-speed infrared

- Two infrared ports for wireless printing or file transfer between IrDA-compliant notebooks, computers, printers or peripheral devices

Total Image Video (760ED)

- Hardware-assisted (decoder chip) motion video acceleration for fluid full-screen playback of MPEG-1 and MPEG-2 files
- High-quality playback of Video for Windows (AVI) files
- Video and still image capture, video overlay and NTSC/PAL video out to TV
- 64-bit graphics engine

IBM Media Processor (760E/ED Models)

- Independent execution of audio and communications functions
- TheatreSound for 16-bit Sound Blaster Pro, MIDI and .WAV support
- 28.8Kbps data/14.4Kbps fax modem
- Full telephony with full-duplex speakerphone and digital answering machine
- Digital Simultaneous Voice Over Data (DSVD) permits voice and data transmission over a single phone line
- Software upgradeable

PC Card support

- Two Type I/II PC Cards or one Type III PC Card, as well as 32-bit PC CardBus technology

Standard I/O interfaces

- External SVGA monitor, serial, Enhanced Parallel (ECP), PS/2-style mouse/keyboard ports
- RJ11 telephony ports on selected models
- Expansion bus ports for docking
- External FDD port⁵
- Video I/O (760ED)

Keyboard/pointing device

- Advanced TrackPoint III with QuickStop response and non-slip cap
- Full-size lift-up keyboard automatically tilts for increased comfort
- Built-in palm rest
- Familiar full-size, 85-key ThinkPad layout

Power supply and management

- Support for dual Li-Ion battery packs
- New, slim 35W AC adapter
- Highly advanced Adaptive Power Management function automatically changes device and suspend timeout values
- Standby, suspend, safe suspend and hibernation modes
- Simultaneously charge two batteries
- Nondisruptive battery exchange

Advanced security protection

- Protected personalization; power-on, supervisory, hard-drive passwords
- Slot for cable lock securing UltraBay, memory, system components

Lotus SmartSuite at no cost

- WordPro word processor, 1-2-3 spreadsheet, Freelance Graphics, Approach database and Organizer scheduler
- CD-ROM or license free with product; diskette copies, hardcopy pubs charged separately

Operating systems supported⁶

- Windows 95; Windows for WorkGroups; Windows 3.11; Windows NT Workstation 3.51
- OS/2 Warp; OS/2 Warp Connect
- IBM PC DOS 7.0; MS DOS 6.22

Options and accessories

- 8MB, 16MB or 32MB SO DIMM memory upgrades
- 1.08GB or 1.2GB hard-disk drives, 2nd hard-drive adapter
- Li-Ion battery pack, CD-ROM drives, docking solutions

Help is just a phone call away

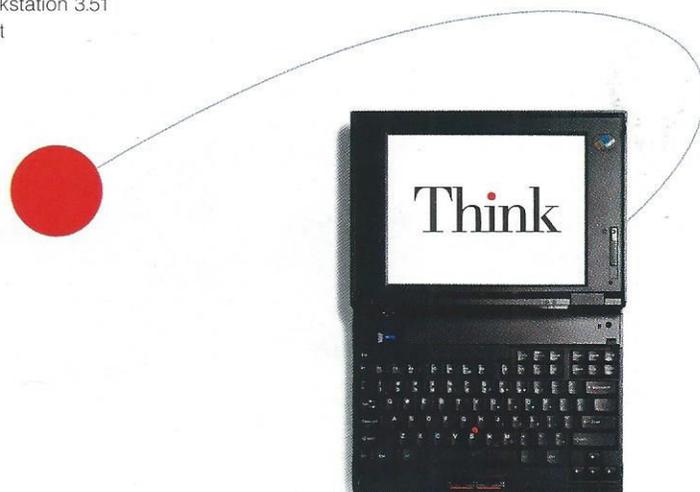

- 3-year warranty⁷; International Warranty Service and EasyServ⁸ door-to-door courier repair; optional overnight repair
- Toll-free hardware support at no additional charge during warranty
- 60 days preinstalled operating system software support

Need more info? Here's how to get it...

For ThinkPad information any time, day or night, dial 1-800-IBM-4FAX to request the ThinkPad Information Directory, document #3934

For timely access to user forums, technical support and information, look for us on the Internet at <http://www.pc.ibm.com/thinkpad>

For dealer and order information, call 1-800-426-2968.

¹Indicates processor's internal clock speed. Application performance will be less.

²MB means million bytes and GB means billion bytes when referring to hard-drive capacity. Accessible capacity varies.

³Supports MPEG-2 Half Horizontal Resolution (HHR).

⁴Battery life and recharge times will vary based on screen brightness, applications, features, power management, battery conditioning and other customer preferences. CD-ROM or HDD usage may also have a significant impact on battery life.

⁵Except selected 760E models.

⁶Level of support varies by operating system.

⁷For terms and conditions or a copy of IBM's limited warranty, call 1-800-772-2227.

⁸Available only in North America at no additional charge during warranty period.
