KDS COMPUTERS

VALIANT
5000 Series

Today's road warrior wants three simple things from their notebook: power, performance, and portability. And they want it at a budget friendly price. The Valiant 5000 Series from KDS Computers unites all three features into a stylish yet affordable design.

Power: The AMD K6$^®$-2 processor, with speeds up to 475MHz, gives it the power to zip through even the most complex spreadsheet or graphic in seconds.

Performance: The Valiant 5000 Series is loaded with features like an integrated 56K modem, two USB ports, built-in speakers and microphone, 3D stereo surround audio, AGP video and dual display support that enable you to be more productive today and tomorrow.

Portability: All of the above plus a built-in floppy drive and 24X CD-ROM and either a 13.0" HPA or a 14.1" TFT screen are combined into a unit that is only 1.5" thick and weighs about 6¾ pounds.

Price: Well, let's just say Accounting might actually smile for a change.

Features

❖   *Up to 475MHz AMD K6$^®$-2*

❖   *13.0" HPA or 14.1" TFT display*

❖   *Integrated 56K data/fax modem*
