The Best in Customer Service

Business Relationships We take a consultative and in-depth view of your computer requirements to ensure that you buy the system that's right for you or your organisation. We encourage long-term business relationships based on trust and reliability.

Knowledge & Experience Whether you want a single system or a multi-node network, our experienced team can give you the best advice and assistance. If necessary we will visit your premises free of charge and carry out a detailed analysis before proposing the most appropriate solution.

Hot-Line Support Free telephone support, we'll find a solution to your problems when all else fails.

On-Site Warranty 12 Months Warranty is standard for all AST systems, or you can upgrade to on-site support for as little as £50 per system for your peace of mind.

Business Leasing Corporate Plan Have a new system now and pay over-time with attractive terms from Decisionware - subject to status.

Fast Delivery Secure and reliable shipment overnight using Amtrak, the No1 Computer delivery service.

When you call Decisionware Systems you get straight through to senior people who love talking direct. There's too much to tell you here: we will gladly answer any questions you have when you call, send you further information or take your order.

Decisionware Systems' satisfied customers include some of the most successful companies and organisations in the country. We would be delighted for you to join them
