

Performance? The secret's in the small print.

Scale 1:20

Take it from Toshiba. Introspection is the only path to a richer life within. Any guru will tell you, the best things often come disguised by understatement. Take the Portégé 650CT, for instance. Outside, refined and petite; inside a rough, tough monster. Designed without any compromises in performance and ergonomics. Feast your eyes on its 11.3" TFT colour screen and run your fingers over the large, ergonomic keyboard. Any way you look at it – it's a real stunner. The Portégé 650CT – to see how big small can be have a look inside.

TOSHIBA

6500CT

Watch MPEG-video in real time and on full screen thanks to the ZV Port.

The optional Card Station: one-touch connectivity to your office peripherals and networks.

It's all the same – memory or hard disk – thanks to the modular design, the Portégé 650CT is readily expandable.

No more messy office printer cables, with an infra-red port that's all behind you.

The Portégé 650CT – high performance doesn't come any neater.

Need maximum power when you're out and about? Right. And you want a notebook that's uniquely light and easy to handle? Fine. Because that's exactly what you get from the Portégé 650CT. A level of performance and ease of use that you'll find hard to match – and all in a lightweight neat little package.

The 133 MHz Intel Pentium® processor will draw out the last drop of even the most complex programs. And working alongside this, the Portégé 650CT has 16 MB EDO RAM (expandable up to 80 MB) of memory that's synchronised to match the processor's 64 bit bus technology. And don't think that you're seeing double – every feature is worth a second look – like the swappable hard disk drive, packed with 1.35 billion bytes of pure-powered pleasure. It's enough to make most desktops green with envy.

The key to the Portégé's ease-of-use and easy working is natur-

ally its super screen. The 11.3" TFT colour display with a resolution of 800 x 600 stands comparison with the very best. And thanks to the ZV Port Video Bus you'll play full-motion video, at full speed, full screen. So a moving multimedia experience is just waiting to happen for you. All you need is the optional MPEG ZV card. Even the sound is dazzling – with built-in stereo for every musical nuance.

Borders will never be a barrier again – with the Portégé 650CT's connectivity options you're always in touch wherever you are. The Portégé 650CT is fitted with 2 PC Card slots (CardBus) and an optional 28,800 bps built-in modem. Faxes, surfing the Net, data transfers: everything's at your fingertips. And there's Windows® 95 too. With the optional Card Station and Desk Station you'll have rapid one-touch docking with all your office peripherals and networks. If you'd like to find out how rich life inside can be, why not contact your local guru – at a Toshiba dealership near you!

Product Specifications

Processor Intel Pentium processor 133 MHz, 2.9V Voltage Reduction Technology
Memory 16 MB EDO RAM with 256 KB 2 nd level cache, expandable to 80 MB
Removable hard disk drive 1,350 billion bytes (1.2 GB), 13 ms access time
External FDD 3.5" 1.44 MB / 720 KB slimline casing
Screen 11.3" (28.7 cm) TFT active matrix screen, low energy
Graphics processor High speed PCI 64-bit processor with 2 MB VRAM, max. resolution 1280 x 1024, max. frequency 85 Hz, dual display mode, BitBIT graphics accelerator
Internal video modes 640 x 480 x up to 16.7 million colours (True Colour)

800 x 600 x up to 16.7 million colours (True Colour)
External video modes 640 x 480 x up to 16.7 million colours 800 x 600 x up to 16.7 million colours 1024 x 768 x up to 65.536 colours 1280 x 1024 x up to 256 colours max. frequency 85 Hz externally
Optional integrated modem World-wide modem with localisation and international certification, Hands- free telephony, Fax and answering machine, Fax/Voice call discrimination
Full-sized keyboard 84 full-sized keys with integrated MousePoint, 2 Windows® 95 keys, 12 function keys, 8 dedicated cursor keys, overlaid numeric keypad. 8 hot keys
Ports Serial, parallel, SVGA port, external microphone and headphone, Desk Station VPlus/Card Station II expansion port, PS/2 mouse/keyboard port, RJ-11 modem connector

Sound system 16-bit, Sound Blaster Pro compatible with MIDI & WAVE support, built-in microphone and speaker, support for full-duplex telephony
Expansion PCI internally and externally, 2 x PC Card type II or 1 x PC Card type III, CardBus and ZV port support, DIMMs memory expansion, extra expansion through Desk Station V Plus or Card Station II
Power supply External auto adapting power supply (100–240 V, 50/60 Hz) for world-wide usage
Battery Removable Lithium-ion battery with up to 3.5 hours battery life, charging in 4 hours with computer off or 5–10 hours with computer on
Size 261 x 208 x 46 mm (10.2" x 8.1" x 1.8")

Weight 2,3 kg (4.9 lb.)
Software Microsoft Windows® 95 or other Microsoft operating systems (upon request), PC Card and Socket services software, screen and sound drivers, MousePoint driver, telephony software
Included hardware External floppy disk drive, AC adaptor
Special features Toshiba AutoResume with AutoSave, MaxTime™ with Advanced Power Management, HotLock, System Pass- word, Plug and Play BIOS, 3-year International Warranty
Options Carrying case, Desk Station V Plus, Card Station II, 8, 16, 32, 64 MB memory modules, PC Card Ethernet adaptor, battery charger unit, integrated modem
