

Natural Pixel Quality

Take it from Toshiba. If you want to turn a drop of falling rain into a source of wonder try the crystal clear Satellite Pro 410CDT. Its huge 11.3" TFT active-matrix colour screen displays pictures with a breathtaking resolution of 800 x 600 – so you just see brilliant colours and razor sharp imagery. Pixel for pixel in pure Toshiba quality. And all at lightning fast speeds thanks to the 90 MHz Pentium processor and quad-speed CD-ROM drive. So why not call in at your Toshiba dealer and take a new look at the world around you, on a Satellite Pro 410CDT.

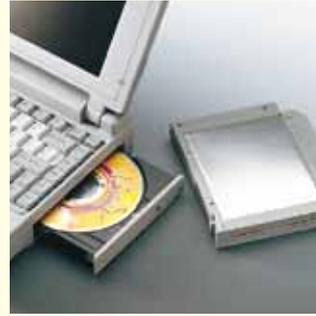

In Touch with Tomorrow
TOSHIBA

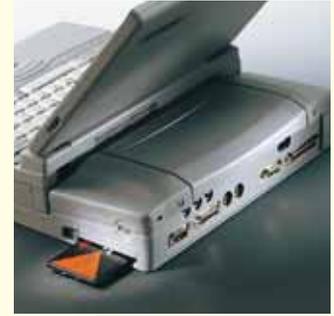

Screen size: 11.3", resolution: 800 x 600, colour palette: 65,536, or just Satellite Pro 410CDT active-matrix TFT technology.

No need to worry about the mains adaptor: it's already built in.

CD-ROM drive or floppy-disk drive? You decide – and change them as often as you want.

Notebook and Card Station, the perfect desktop solution: a one-click connection to all your office peripherals plus additional PCMCIA slots.

The future today – the Satellite Pro 410CDT

With the latest notebook in the Satellite Pro Series you'll be able to meet tomorrow's aspirations today. Not only does the Satellite Pro 410CDT have a 90 MHz Pentium processor, it's also packed with the sort of punchy components that make the most out of the Pentium chip's speed and power. Like the suitably capacious 810 million byte hard disk drive or the standard 8 MB of EDO RAM – short for Extended Data Output – that makes sure data is delivered in big enough parcels to keep even the ultra-fast Pentium processor satisfied.

What's more, with the quad-speed CD-ROM drive, the Satellite Pro 410CDT is the perfect partner for multimedia. Your full-motion video files will run sharp and smooth. Alternatively, swap your CD-ROM drive for a floppy drive when you want to swap data. Both are delivered with the PC and both fit into the Toshiba SelectBay. A built-in, Sound Blaster Pro compatible 16-bit sound card can even turn your screen into anything from a rock concert to an opera.

All these pyrotechnics are brought to life on the Satellite Pro's remarkably large TFT screen. With 11.3 inches and High Colour at a

resolution of 800 x 600 pixels, you're going to be watching every detail with crystal clarity and brilliant colours. And to protect your eyesight, the video controller ensures that pictures on an external screen are refreshed at an ergonomic rate of 75Hz.

In communications, the Satellite Pro 410CDT offers a new perspective. There's a PC Card (PCMCIA) slot for 2 Type II or one Type III cards, so your E-mail, fax or network connections are always within reach. And a Serial InfraRed (SIR) port brings you cable-less data connections to your printer or a desktop PC. Externally there's an optional Card Station for a further two Type III PC Card slots, an additional MIDI connector and a whole range of ports.

But no matter how good the technology, there's a human test it has to pass too – you. So we've made the Satellite Pro 410CDT incredibly user friendly as well. And where do you get to test it? Why at your Toshiba dealer, of course!

Product Specifications

Processor

Intel Pentium processor, 90 MHz int./ 60 MHz ext., 2.9-volt core using Voltage Reduction Technology
16 KB cache on chip

Memory

Standard 8 MB RAM, expandable to 40 MB (EDO RAM)

Hard disk

810 Mill. Bytes capacity (772 MB)

Diskette drive

3.5" 1.44 MB / 720 KB
media-type checking, swappable with CD-ROM drive, can also be used externally

CD-ROM drive

4-speed, 12 cm (5.25") and 8 cm (3.5") disks, Data transfer: 600 KB/s, Ave. Access Time: 210 ms

Display

11.3" (28.7 cm) active-matrix colour TFT

Graphics adaptor

SVGA/VGA compatible, dual display mode, local bus, BitBIT graphics accelerator

Internal video modes

640 x 480 x 65,536 colours
800 x 600 x 65,536 colours

External video modes

640 x 480 x 16,7 mill. colours,
800 x 600 x 65,536 colours,
1024 x 768 x 256 colours

Keyboard

84 keys, integrated MousePoint, standard layout, 12 function keys, 8 dedicated cursor keys, inlaid numeric keypad, 8 Hot Keys

Interfaces

Serial port, parallel port (ECP), ext. VGA monitor, PS/2 mouse or keyboard, ext. FDD, serial infrared port, audio in, headphone, ext. microphone, Card Station also provides MIDI/Joystick connector

Expansion

2 x (PC Card 2.0) Type II or 1 x (PC Card 2.0) Type III, memory expansion slot (SIMMs), Card Station provides additional PC Card Type III slots

Integrated power supply

Autosensing 100-240 V AC adaptor for world-wide usage

Sound system

16-bit Sound Blaster Pro compatible, MIDI & WAVE support, Built-in speaker & microphone

Battery

Removable lithium-ion batteries, up to 4 hrs battery life, recharge: 4 hrs off / 5 - 8 hrs on

Size

299 x 235 x 55 mm
(11.7" x 9.0" x 2.1")

Weight

3.2 kg

Bundled software

DOS 6.22, MS Windows for Workgroups 3.11 or Windows® 95 (selectable Installation), PCMCIA Socket and Card Services software, screen drivers, MousePoint driver, ESS Audio Applications, CD-ROM driver and utility, TransXit serial infrared software, all pre-installed on the hard disk

Bundled hardware

Ext. diskette drive

Special features

Toshiba AutoResume with AutoSave, MaxTime™ with Advanced Power Management, HotLock, system password, Plug and Play BIOS, 3-year International Warranty

Options

Carrying case, Card Station, extra battery packs, battery charger, 8, 16 and 32 MB memory modules, PCMCIA CryptCard, PCMCIA Ethernet adapter

Dealer Stamp

TOSHIBA
