T1000SE

T1000SE

Packing performance into portable computers is how we make a living at Toshiba. But this time, we just may have outdone ourselves. Introducing the Toshiba T1000SE. A 2.8 kg (5.9 lb) notebook-size portable computer built to make you more effective.
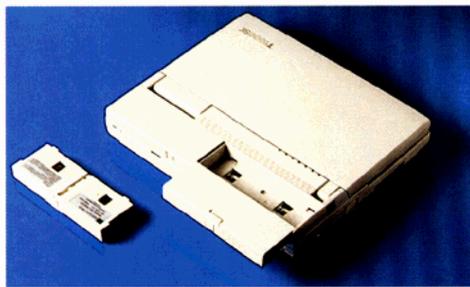

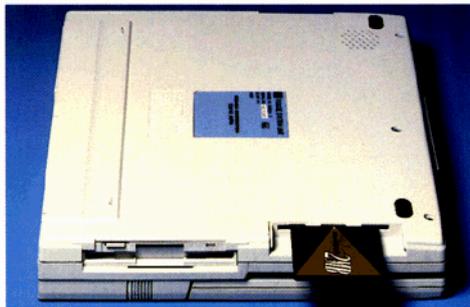

NOTEBOOK SIZE

Now you can trade in your personal diary for an industry-standard computer. The Toshiba T1000SE is a sleek, slim portable computer that is not much bigger than an A4 page. But the T1000SE can be much more than any personal organizer could ever be. A word processor or remote communications platform. A spreadsheet or even a portable presentation system. And, of course, it can also be used as an efficient electronic time manager to replace your diary. The T1000SE is an indispensable information tool that will enhance your personal effectiveness in the office and out. Soon you won't ever want to leave without one.

MAXIMUM COMPATIBILITY

Other notebook-size computers compromise industry-standard compatibility to achieve small size. Not the T1000SE. The T1000SE is designed to give industry-standard performance in the smallest possible package. The key to the MS-DOS world is the Intel 80C86™ microprocessor running at 9.54 MHz. The high-resolution Supertwist display uses technology which helps reduce the overall size of the T1000SE while at the same time giving maximum readability. The new ultra-thin diskette drive uses the industry-standard 3.5" 1.44 MB/720 KB format to ensure easy file transfer to standard office PCs. The drive is equipped with a feature that automatically senses whether 1.44 MB or 720 KB diskettes are being used. Despite its small footprint, the T1000SE comes with a full-size 84-key keyboard and standard Centronics parallel and RS 232C serial interfaces for connecting printers and other peripherals.

TOSHIBA DETAILS

Once again Toshiba has found clever ways to provide maximum utility, ergonomics, and power in a small, neat package. MS-DOS 3.3 comes built into ROM so no MS-DOS diskette is required. The 1 MB of standard RAM can be expanded to up to 3 MB using handy, user-installable RAM cards. You can use the extra RAM above 640 KB as a fast battery-backed Hard RAM disk for up to 2.3 MB additional disk storage space. AutoResume™ is a popular Toshiba feature that offers a quick start, remembering where you left off when you were last working. The T1000SE cannot be turned on when the lid is down, preventing accidental power on and unnecessary battery drain during transport. The T1000SE battery is removable and rechargeable so you can carry extra batteries to extend operating time as long as you want. A slot for a built-in modem is standard and makes the T1000SE an effective portable platform for communications. So wherever you are, you can keep in touch with headquarters. But most importantly, you get Toshiba rugged quality and reliability. And Toshiba service. Quick. Professional. Worldwide.

Specifications

Processor
Intel 80C86™ microprocessor
Adjustable 9.54/4.77 MHz operating speed
Reset button
AutoResume™

Memory
1 MB RAM standard
3 MB Max RAM
1 or 2 MB memory cards
MS-DOS 3.3 in ROM (512 KB)
LIM-EMS 3.2

Storage
Battery-backed Hard RAM for memory above 640 KB
Internal 3.5" 1.44 MB/720 KB diskette drive

Display
High-resolution backlit Supertwist LCD
640 x 400 dot resolution
Brightness and contrast control
Size: 19.5 x 12.5 cm (7.7 x 4.9")
23 cm (9.2") diagonal

Graphics Adapter
CGA compatible
Toshiba graphics mode (compatible with AT&T 6300)

Interfaces
25-pin bidirectional parallel/external diskette drive interface
9-pin RS-232C serial port

Expansion Slots
Built-in dedicated modem slot

Keyboard
Sculptured full-size 84-key keyboard
Integrated cursor/numeric keypad
12 Fn keys

Operating System
MS-DOS 3.3
MS-DOS 4.01 (option)

Power Supply
Autosensing 100-240 VAC for worldwide usage

Battery
High-density rechargeable NiCd
Removable
2.5-3.5 hours per charge

Dimensions
310 x 254 x 44.5 mm (W x D x H)
12.2 x 10 x 1.8" (W x D x H)

Weight
2.8 kg/5.9 lb (including battery)

Options
Carrying case
Built-in modem (where approved)
1 or 2 MB memory expansion cards
External 5.25" diskette drive
External numeric keypad
MS-DOS 4.01
Extra battery packs
Quick charger
Toshiba ExpressWriter 301 portable printer
