

Moving on, moving out, moving up

Until now Toshiba engineers have focused on miniaturising PC technology. But with the Satellite T2100 Series they have now even shrunk the price. So you get bigger performance, better quality and a smaller price tag. The secret lies hidden inside. Outside everything is deceptively elegant: smooth grey contours, smart little MousePoint and a pushed-back keyboard design. Simply beautifully put together.

In Touch with Tomorrow
TOSHIBA

The eyes have it. Great screens get noticed whether in monochrome or colour.

No need to lean on this little maestro to get results. The MousePoint responds to the slightest touch for quick, precise cursor control.

The PCMCIA slot takes two Type II or one Type III cards and with them an almost limitless range of connectivity options.

Turn up, tune in and turn on – with a port replicator connections couldn't be simpler. One touch and you're hooked up all your peripherals.

The Satellite T2100 Series. The choice is yours.

Easy to say, but not so easy to choose. Each of these three little gems has a lot going for it. For instance on the T2100 there's a 9.5 inch monochrome screen with 64 grey scales. And the 256-colour, Dual Scan STN screen on the T2100CS is an even larger 10.4 inches. While the T2100CT has an active matrix colour screen with 65,536 colours, that's, – well, simply brilliant. But they all have one great thing in common: big value combined with high performance.

One look inside and you'll be convinced: start with the IntelDX2 processor working a brisk at 50 MHz. Then local bus technology – directly linking the screen and processor to bring lightening fast graphics builds. Even the mains adaptor is a work of art – built completely into the T2100 Series so there's one less thing to worry about carrying around.

And when it comes to ergonomics, you'll notice other benefits on these three models. Like the pushed-back keyboard which creates a relaxed comfortable typing platform, however long you're working. In the middle is the MousePoint – the practical answer to cursor control. It's just as easy for left as for right handed people to use.

And so that you can keep in touch when you're on the road, all three models are fitted with a PCMCIA slot for two Type II or one Type III cards. That way you can add a fax/modem to your options or expand your disk capacity. In the office, a network card connects you to the company database and e-mail system. While the optional port replicator gives you a one-touch access to all your desktop peripherals.

Product Specifications

Processor SL Enhanced IntelDX2, 50 MHz int./25 MHz ext., 3.3 volt technology, 8 KB cache on chip, built-in numeric coprocessor
Memory T2100 & T2100CS: Standard 4 MB, expandable to 28 MB T2100CT: Standard 8 MB, expandable to 32 MB
Hard disk T2100: 260 Mill. Bytes capacity T2100CS & CT: 260/350 Mill. Bytes capacity
Diskette drive 3.5" 1.44 MB / 720 KB media-type checking
Display T2100: 24 cm (9.5") advanced STN monochrome LCD T2100CS: 26 cm (10.4") advanced STN colour LCD T2100CT: 21 cm (8.4") low-power active-matrix TFT colour LCD

Graphics adaptor SVGA/VGA compatible, VESA local bus, BitBIT graphics accelerator
Internal video modes T2100: 640 x 480 x 64 grey scales T2100CS: 640 x 480 x 256 colours T2100CT: 640 x 480 x 64 K colours
External video modes 640 x 480 x 256 colours (CS & CT: 640 x 480 x 65,536 colours), 800 x 600 x 256 colours, (CS & CT: 1024 x 768 x 256 colours) from a palette of up to 262,144 colours
Keyboard 84 keys incorporating the MousePoint, standard layout, 12 function keys, 8 dedicated cursor keys, inlaid numeric keypad, 8 Hot Keys

Interfaces Serial port, parallel port (ECP), ext. VGA monitor, PS/2 keyboard Via port replicator: above interfaces plus: PS/2 mouse
Expansion 2 x PCMCIA 2.0 Type II (5 mm) or 1 x PCMCIA 2.0 Type III (10.5 mm), memory expansion slot (SIMMs), port replicator connector
Power supply Integrated AC adaptor for world-wide usage Autosensing 100-240 V
Battery Removable NiH ₂ batteries, battery life T2100 & T2100CS: 4 hrs T2100CT: 3.5 hrs recharge: 2-3 hrs off / 48 hrs on

Size 299 x 226 x 53 mm (11.7" x 8.93" x 2.0")
Weight T2100: 3.0 kg (6.6 lb.) T2100CS & T2100CT: 3.1 kg (7 lb.)
Bundled software MS Windows 3.11, MS-DOS 6.22, PCMCIA 2.0 Socket and Card Services, screen drivers, MousePoint driver, all pre-installed on the hard disk
Special features Toshiba AutoResume with AutoSave, MaxTime™ with Advanced Power Management, HotLock, system password 1-Year International Warranty
Options Carrying case, port replicator, extra battery packs, battery charger, 4, 8, 16 and 24 MB memory modules, PCMCIA CryptCard, PCMCIA Fax modem, PCMCIA Network cards, Toshiba ExpressWriter 201
