T4400 Series Personal Computers

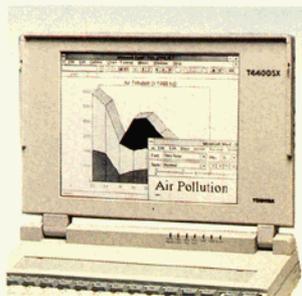

*"It has the pace and power
to keep me moving ahead."*

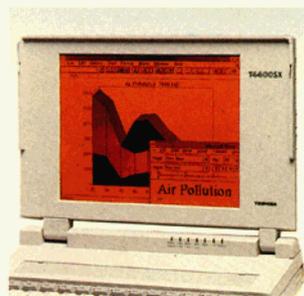

Speed. It has always been our obsession: to go quicker, to achieve more. But the ability to work fast and effectively is no longer just nice to have. It is crucial. That's why modern professionals are turning to mobile technology. They recognise that the flexibility offered by Toshiba PCs to work whenever and wherever they want puts them ahead of those that wait in the office. Toshiba is the world leader in mobile computing. And it shows, in the shape of Toshiba's T4400 notebook computers. A true A4 size, but with far more speed and power due to the Intel 486SX™ micro-processor, the T4400 series contains advanced technology for long term investment value. They offer a choice of screens, either LCD, super-fast plasma or the latest in active-matrix colour screen technology. All create bright, fast screen operations for a wide range of application needs. An easy-to-use, well-laid-out keyboard makes entering data as easy as reading it from the bright 256-colour displays. As mobile PCs, the T4400 models are functional and lightweight, but tough enough for the road. Yet with a simple one-touch connection to a Desk Station IV, they can be instantly transformed into powerful desktops for the office. In an age when all the conventions are changing, the speed and style of the T4400 series gives you a feel of the future.

The T4400SX with 9.5" black and white, monochrome LCD screen, 486SX processor, 2 MB standard RAM and 80 MB hard disk. Weighs 3.3 kg (7.2 lb).

The T4400SX with 9.5" gas plasma, monochrome screen, 486SX processor, 2 MB standard RAM and 80 MB hard disk. Weighs 3.3 kg (7.2 lb).

The T4400SXC with 8.4", 256 colour, TFT screen, 486SX processor, 4 MB standard RAM and 80 MB hard disk. Weighs 3.5 kg (7.6 lb).

The T4400C with 9.5", 256 colour, TFT screen and 4 MB standard RAM. Processor & hard disk paired: 486SX with 120 MB, 486DX with 200 MB. Weighs 3.7 kg (8.1 lb).

Advanced notebooks for every need.

The T4400 series offers a wide choice of advanced notebook PCs to meet all possible user requirements. At the heart of the range is the Intel 486SX processor – up to 4 times as fast as 386SX versions. For even more speed the 486DX-based T4400C includes a built-in maths co-processor.

Staying in contact.

The T4400 series gives you plenty of power to work on your own out of the office but never leaves you isolated. A modem, fax/modem or ISDN card (where approved) fit into the communications slot to keep you in touch with other people. Sending and receiving new data just becomes a question of finding the next telephone connection.

Toshiba Quality

Special features define the T4400 pedigree, such as AutoResume – an electronic bookmark which lets you switch the PC off at any time and switch back on to exactly the same place, hours or days later, or the International Warranty to give you security anywhere in the industrialised world.

Processor

Intel 486SX/DX, 25/12.5 MHz clock speed, 8 KB cache on chip

Memory

Standard 2/4 MB RAM, expandable to 18/20 MB

Hard Disk

See above. 12/19 ms ave. access time

Diskette Drive

3.5" 1.44 MB/720 KB, Media-type checking

Display

LCD, plasma or 256 colour display; size as above; 640 x 480 dot resolution

Graphics Adaptor

VGA compatible, 16 grey scales (plasma), 64 grey scales (LCD), up to 256 colours (TFT) and on all external screens

Keyboard

84 full-sized sculptured keys in familiar layout, 12 function keys, 8 dedicated cursor keys, integrated numeric keypad

Interfaces

Parallel/FDD port, serial port, PS/2 mouse port, Desk Station IV connector, VGA monitor port, numeric keypad port

Special Features

MaxTime™ Power Management, AutoResume Mode, Power-on, password protection, Toshiba HardRAM™

Expansion

Desk Station IV option, Toshiba communications slot, Credit-card-sized memory expansion slot

Power Supply

Autosensing 100-240 V AC adaptor for world-wide usage

Battery

Rechargeable and removable NiCd, 3-4 hours battery life, recharges in 1.5 hours

Size

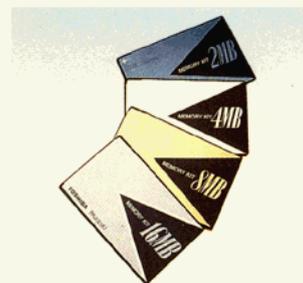

297 x 210 x 56 mm (11.7" x 8.3" x 2.2")
T4400C 3 mm higher

Options

Carrying case, Desk Station IV, Extra battery packs, Internal 2, 4, 8 & 16 MB memory expansion cards, External diskette drive, external numeric keypad, external keyboard adaptor, key caps for European languages, MS-DOS 5.0, Toshiba Express Writer 201 portable printer.
