## T4600 Series Personal Computer

*"It's good to have a friend  
in high places."*

Everyone needs a friend, someone to turn to no matter what. But in business today it's not just people you need. It's technology too. The Toshiba T4600 offers something special: the pressures of the office relieved by a notebook computer that's designed for life at the top. Unprecedented power to do some of the calculating and thinking for you; yet discreet enough to be your constant companion. It's the ultimate boost to your effectiveness; a high-end performer that's like an alter ego. The T4600's 33 MHz Intel 486SL and large memory means it can handle the most demanding software. With its light weight and small size, you can work when and where you want. Its hard disk is large enough to carry everything you need and the two PCMCIA slots provide the latest in PC expandability. There's also a whole range of user-friendly details that simplify and speed up your work. All in all, it's a top performer for your best performances. Because at the top, details aren't just details, they're the difference between you and the rest.

Take it from Toshiba

Improved screen technology for greater contrast and faster response.

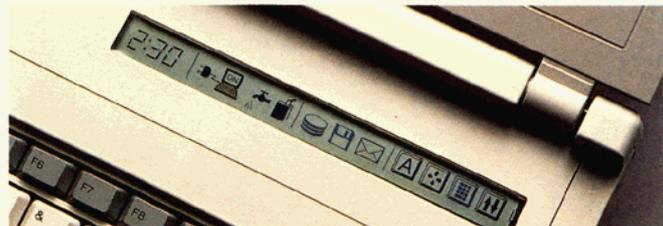

### Life at the top is fast paced

The T4600 is at the top of Toshiba's notebook range. Based around the Intel 486SL running at 33 MHz, the T4600 takes memory intensive applications in its stride, letting you move on to other tasks more quickly. And with a 200 or 340 MB hard disk, it's probably got more storage space than your office.

### More than just a slick little mover

Toshiba's T4600 is not only faster than other notebook computers, it has got the looks to go with it. A 9.5" advanced screen in either active-matrix TFT colour or passive-matrix STN monochrome is state-of-the-art. And for the latest in expandability, there are two PCMCIA 2.0 slots built in. With PCMCIA 2.0 you can customise your notebook to your needs with card-sized expansion modules: a removable hard disk, for instance, or handy add-ins like network cards or modems.

QuickRead™ LCD icons display system functions at a glance.

The Microsoft BallPoint® with QuickPort™ is the ideal mouse when you're on the move.

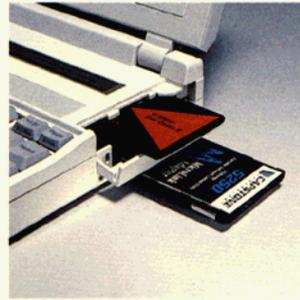

### Time is on your side

Hot keys that set up the T4600 to suit your own needs; QuickRead icons arranged on a "dashboard" that let you observe system status; a Microsoft BallPoint® with QuickPort™ for more precise cursor control: all of these user-friendly details are the result of Toshiba's leadership in mobile computing engineering. They make the T4600 easier to use and more productive. These may sound like simple items – but then why don't other mobile computers have them?

### Toshiba leads from the front

Toshiba led the way in notebooks when other companies couldn't think further than the desktop PC. A consistent record of innovation means that new ideas are introduced onto the highest quality base. For instance, the T4600's high-value security features like MultiSafe and the optional PCMCIA CryptCard that offers the ultimate in confidentiality – just as you'd expect from a friend at the top.

Two PCMCIA 2.0 slots for unlimited expandability in handy format.

Desk Station versatility: one touch access to your office networks and peripherals.

### Product Specifications

#### Processor

Intel 486SL, 3.3 volt, 33 MHz  
8 KB cache on chip

#### Memory

Standard 4 MB RAM  
Expandable to 20 MB

#### Hard Disk

200 or 340 MB (12 ms average access)

#### Diskette Drive

3.5" 1.44 MB / 720 KB  
Media-type checking

#### Display 9.5" diagonal

T4600: passive-matrix monochrome STN LCD,  
T4600C: active-matrix colour TFT LCD

#### Graphics Adaptor

T4600: VGA compatible, dual display mode, up to 64 grey shades  
T4600C: VGA compatible, dual display mode, up to 256 colours simultaneously from 185,193 on internal display

#### External Video Modes

SVGA, 640 x 480 x 256 colours  
800 x 600 x 256 colours  
1024 x 768 x 16 colours  
All from a palette of 262,144

#### Keyboard

84 key standard layout  
12 function keys  
8 cursor keys  
Inlaid numeric keypad  
Up to 13 "hot keys"

#### Interfaces

Enhanced parallel port,  
Serial port, PS/2 mouse port,  
PS/2 keyboard port, Analogue VGA port, 150-pin connector for Desk Station IV, QuickPort™ for BallPoint®

### Expansion

Desk Station IV option, credit-card-format memory expansion, 16 mm PCMCIA 2.0 (Type I, II or III) & 5 mm PCMCIA 2.0 (Type I or II)

### Power Supply

Autosensing 100-240 V AC adaptor for world-wide usage

### Battery

T4600: Removable NiCd, 3-4.5 hrs battery life, Recharge 1.2 hrs off / 2.5 hrs on  
T4600C: Removable NiH<sub>2</sub>, 2-3.5 hrs battery life, Recharge 1.5 hrs off / 4 hrs on

### Size

T4600: 297 x 210 x 46 mm (11.7" x 8.3" x 1.8")  
T4600C: 297 x 210 x 51 mm (11.8" x 8.3" x 2.0")

### Weight

T4600: 2.9 kg (6.4 lb)  
T4600C: 3.2 kg (7.2 lb)

### Bundled Software and Hardware

BallPoint® with QuickPort™, MS-DOS 5.0, MS Windows 3.1 PCMCIA CardControl™

### Special Features

AutoResume and AutoSave Mode  
MaxTime™ Power Management with APM  
MultiSafe security  
Kensington cable lock provision  
QuickRead™ LCD icons

### Options

Carrying case, Desk Station IV, Extra battery packs, Battery charger, 4, 8 and 16 MB memory cards, PCMCIA CryptCard, PCMCIA 2.0 high-speed data / fax modem (where approved)  
Auto Adaptor, Toshiba ExpressWriter 201
