## T4700CT

### Personal Computer

*"It's got all the power of sound and vision."*

When you've calculated and processed all you can on a conventional notebook computer, the world of sound and vision may come as quite a shock. The Toshiba T4700CT Advanced Notebook turns information into an event. It changes one-dimensional data into a business presentation complete with sound and video. Your work becomes more engaging, more persuasive, even more fun. Computing becomes creative. The T4700CT is not only among the most powerful notebooks - with all the memory and storage you need for tomorrow's advanced applications - it's also equipped with a built-in sound system and a superb graphics system that brings out the best in its large, low-power, TFT colour screen. The T4700CT is not simply more technology, it's technology that's more like you. It communicates like you, more naturally, using sounds and moving pictures. So when you put data together for a pitch, your audiences will see you and your computer in a whole new light. With the power of sound and vision, you and the T4700CT will leave all your competitors in the shade.

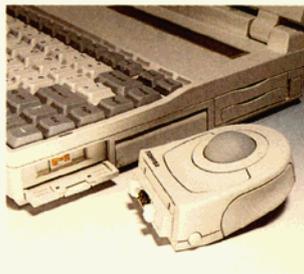

**New** ➤ **The Toshiba 3-year International Warranty**

Take it from Toshiba

The 9.5" TFT colour screen shows 256 colours, and its Windows graphics accelerator keeps up with your pace

Microsoft's BallPoint® V 2.0 mouse untangles all your old mouse problems - without cables

Two PCMCIA 2.0 slots are better than one when it comes to expansion

The built-in Microsoft Sound System, including microphone and speaker, lets you record live

### Presenting your case

It's no good just having bright ideas, often you have to persuade others that they're the right ones. That means not just showing text and numbers but spicing it up with sound and video. Multimedia enhances your message, and the T4700CT is one of the only notebooks designed for this job. First there's a 9.5" super-clear TFT colour screen that is simply the best around, showing the full range of 256 SVGA colours. Then there's the Vesa local bus and Windows graphics accelerator for quick creation of first-class images that not only do justice to the screen, but also to your ideas.

### As fast as reality

The Toshiba T4700CT is so fast and powerful you can see your work take shape in front of your eyes. Its SL Enhanced Intel 486 DX2/50 processor gives it the speed that makes real-time video come alive. To avoid bottlenecks there's the choice of 200 or 320 MB hard disk drives and 8 MB of standard RAM. The uncompromising expansion facilities - two PCMCIA 2.0 slots, a memory slot to extend RAM up to 24 MB and the Desk Station IV connection - makes it even more versatile than most desktops.

### Built-in sound that gets you noticed

The Toshiba T4700CT has built-in sound capabilities, including a microphone and speaker, that will transform your approach to computing. For one thing, using the Microsoft Windows Sound System that comes bundled with the T4700CT, you can annotate all your applications with sounds and voice messages. The combination of fully integrated sound capabilities, high-performance graphics and super-fast processing makes the T4700CT ready for the multimedia future, while running today's applications faster than ever.

### Style that matches the performance

The T4700CT continues the Toshiba tradition of high style and ergonomics. The casing is robust but slim and elegant. There's a comfortable keyboard and the new sculptured Microsoft BallPoint® V 2.0 that connects quickly to the QuickPort™ connector, as well as Toshiba's unique QuickRead LCD icons for instant status displays. Add to this useful details such as hot keys, AutoResume and AutoSave and it's clear why Toshiba has earned the ISO 9002 seal of approval and is willing to back up the T4700CT with its unique 3 Year International Warranty.

### Product Specifications

#### Processor

SL Enhanced Intel 486DX2, 50 MHz, int./25 MHz ext., 3.3 volt technology, 8 KB cache on chip, built-in numeric coprocessor

#### Memory

Standard 8 MB RAM, expandable to 24 MB

#### Hard Disk

Upgradable 200 or 320 MB hard disk (12 ms average access time)

#### Diskette Drive

3.5" 1.44 MB / 720 KB media-type checking

#### Display

9.5" low-power active-matrix TFT colour LCD, 256 colours

#### Graphics adaptor

SVGA/VGA compatible, up to 256 colours simultaneously from 262,144 at 640 x 480, dual display mode, VESA local bus, BitBIT graphics accelerator

#### Internal video modes

640 x 480 x 256 colours

#### External Video Modes

640 x 480 x 256 colours  
800 x 600 x 256 colours  
1024 x 768 x 256 colours  
from a palette of up to 262,144

#### Keyboard

84 keys, standard layout, 12 function keys, 8 dedicated cursor keys, inlaid numeric keypad, 10 "hot keys"

#### Interfaces

Serial, parallel / FDD port, ext. VGA monitor, PS/2 mouse, PS/2 keyboard, 150-pin connector for Desk-

Station IV, ext. microphone jack, ext. headphones jack

#### Expansion

1 x PCMCIA 2.0 Type II (5 mm), 1 x PCMCIA 2.0 Type III (up to 16 mm), credit-card-format memory expansion, Desk Station IV (option)

#### Power Supply

Autosensing 100-240 V AC adaptor for world-wide usage

#### Battery

Removable NiH<sub>2</sub> batteries up to 3.5 hrs battery life recharge: 1.5-2 hrs off/2-4 hrs on

#### Size

297 x 210 x 56 mm (11.8" x 8.4" x 2.2")

#### Weight

3.1 kg (6.8 lb.)

#### Bundled software

MS Windows 3.1, DOS 6.0, MS Sound System, PCMCIA Socket and Card Services, screen drivers, all pre-installed on the hard disk

#### Bundled hardware

MS Sound System (wave) on motherboard, MS BallPoint® V 2.0 with QuickPort™

#### Special Features

Microsoft Windows Sound System with int. speaker and microphone, Toshiba AutoResume Mode with AutoSave, MaxTime™ with Advanced Power Management, MultiSafe security system, Kensington cable lock provision, QuickRead™ LCD icons

#### Options

Carrying case, Desk Station IV, extra battery packs, battery charger, 4, 8 and 16 MB memory cards, PCMCIA CryptCard, ext. FDD, car adaptor, Toshiba ExpressWriter 201

QuickRead LCD icons display everything you ever wanted to know about the status of your PC
