TOSHIBA

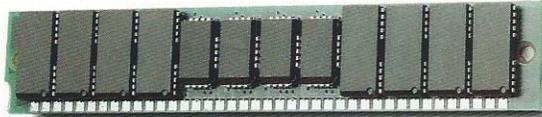

EXPANDING YOUR OPPORTUNITIES.

The T5200 combines slimline design with the ability to accommodate expansion cards through a pair of IBM®-compatible internal slots. Choose from hundreds of add-in cards to tailor your T5200 to your operating style. You can add options like LAN cards, main-frame communications boards, and more.

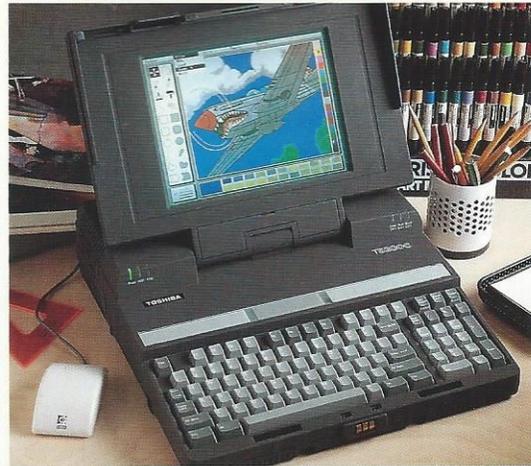

Expansion is further simplified by a full complement of standard, built-in interfaces for connection to a VGA monitor, two serial devices, and a parallel printer, external tape back-up drive, or external 5 1/4" diskette drive.

Memory expands to a full 14MB.

A CLEAR VIEW OF WHAT'S AHEAD.

Standard equipment includes a choice of detachable, high-resolution 640 X 480 pixel VGA screens. You can select Toshiba's high-contrast gas plasma screen with 16 gray scales – or specify our 16-color, high contrast STN-LCD. Both screens are easy on the eyes, providing optimum

The 16-color STN-LCD provides high resolution, 640 x 480 pixel VGA display.

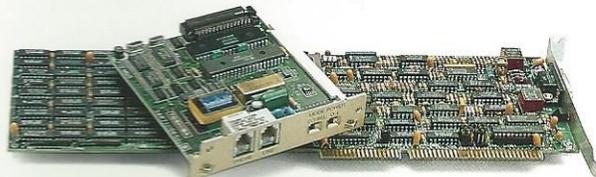

readability under any ambient lighting conditions. Further, Toshiba's system can be used

to display VGA graphics and text on the built-in screen and on an external color monitor

or projection unit at the same time.

FLEXIBILITY BY DESIGN.

The sleek T5200 portable desktop is the ultimate solution for the power user on the move. Toshiba's classic clamshell case is compact, with center-hinged display to reduce volume and facilitate transport. Note that the T5200 sets up in a mere 1.6 square feet of

The T5200 accommodates standard IBM-compatible expansion boards and easy-to-install Toshiba style cards.

Expansion is easy with two IBM-compatible slots, three dedicated Toshiba memory slots, plus a wealth of built-in interface ports.

work space and handles assignments anywhere with its standard auto sensing world-wide power supply.

YOU'LL REALLY APPRECIATE IT DOWN THE ROAD.

The T5200 is inherently reliable and ruggedly handsome. It's also especially well supported. If you ever have questions about its operation or service, give us a call toll-free for support. There's never a charge for this service.

Additionally, the T5200 is fully backed by Toshiba and its network of ProCare

Authorized Service Providers. The T5200 carries a year-long limited warranty with no-cost Exceptional Care enrollment during this period. Toshiba's exclusive Exceptional Care program is our promise to you that if we have to fix your computer, we'll fix you up with another while you wait.

SEE WHAT IT'LL DO!

There's much more to the T5200, as you'll experience in a hands-on demonstration. Once you've enjoyed the performance, expandability and freedom of Toshiba's high-performance T5200, you'll never settle for a desktop PC again.

Contact your Toshiba Authorized Reseller today for a demonstration. For the name of your nearest dealer, call Toshiba toll-free at 1-800-457-7777.

Built-in VGA capabilities display images simultaneously on the high resolution built-in screen and an external monitor or projection unit.

TOSHIBA T5200. HIGH POWER PORTABILITY FOR ENHANCED PRODUCTIVITY.

In and out of the office, the T5200 has a well-deserved reputation for keeping power users very, very satisfied. This uncompromising portable desktop computer quickly transforms your workstyle into a model of efficiency, easily meeting all the requirements of today's dynamic work environment. With its power, performance and expandability, the T5200 has all the functionality of a desktop PC plus, the added benefit of portability to boost your productivity.

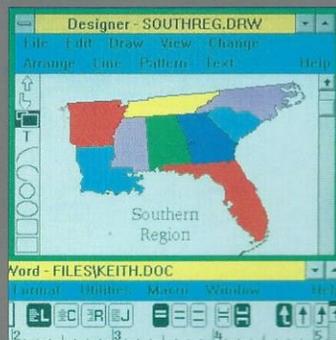

PERFORMANCE THAT TURNS HEADS.

Put yourself at the controls of a 20MHz 386™ machine with full 32-bit power and an unmatched performance-to-weight ratio. Inside this sleek portable desktop is a host of exceptional standard equipment – VGA gas plasma

or color display system; fast-access hard disk drive in capacities of 40MB, 100MB or 200MB; 2MB of high-speed 32-bit memory; plus a keyboard with full-size, standard-spaced keys and a separate numeric keypad. Also included is a memory cache controller with 32KB of high speed RAM to take performance to new heights. And expansion opportunities abound!

ACCELERATING YOUR PROGRESS.

Those with an exceptional hunger for power will find much to like on Toshiba's option list. For instance, memory can grow to a full 14MB using dedicated 32-bit memory expansion slots, and there's a built-in socket for an 80387-20™ math coprocessor. Options include everything from modems and tape back-up drives to a luxurious leather carrying case.

The VGA color STN-LCD provides a crisper, easier-to-read display than comparable VGA-compatible CRTs.

T5200 SPECIFICATIONS

PROCESSOR

- 80386™, running at 20MHz
- 80387-20 coprocessor socket
- Real time clock/calendar

EXPANSION SLOTS

- Two internal IBM-compatible expansion slots
 - one full-length, 16-bit (IBM PC/XT 286 compatible)
 - one dual function half slot, which can be used for either an IBM compatible half length 8-bit card or a Toshiba 16-bit card
- Three dedicated 32-bit Toshiba memory expansion slots

MEMORY

- 2MB RAM, which includes 640KB user memory and 1.4MB LIM-EMS or extended. Expandable to 14MB using the three dedicated 32-bit memory slots.
- High-speed 32-bit dedicated memory bus
- 32KB high-speed (35 ns) static memory cache increases system performance

DISK DRIVES

- T5200
 - 40MB hard disk drive with 25 msec. average access time
 - 1.44MB 3 1/2" diskette drive – PS/2® compatible
- T5200/100
 - 100MB hard disk drive with 25 msec. average access time
 - 1.44MB 3 1/2" diskette drive – PS/2 compatible
- T5200/200, T5200C/200
 - 200MB hard disk drive with 16 msec. average access time
 - 1.44MB 3 1/2" diskette drive – PS/2 compatible

DISPLAYS

- IBM Video Graphics Array (VGA) compatible display system
- 640 x 480 pixel graphics display

- Two display choices:
 - Detachable high-resolution gas plasma display with 16 gray scales and adjustable brightness
 - Detachable high resolution color STN-LCD display with 16 colors and adjustable brightness
- System display and external monitor port are active simultaneously
- Display Dimensions:
 - Plasma : 11.375" Diagonal.
 - Color : 10.5" Diagonal.

KEYBOARD

- Full-function, standard key-spaced, 91-key sculptured keyboard (101-key keyboard compatible)
- Separate cursor control and numeric keypad

STANDARD INTERFACES

- VGA monitor port
- Selectable port for :
 - Parallel printer, or
 - External tape back-up drive, or
 - 5 1/4" diskette drive
- Two nine-pin RS-232-C serial ports

SECURITY FEATURES

- Combination lock prohibits unauthorized access to keyboard
- Slide-out mounting bracket to attach customer-supplied security strap

SOFTWARE

- MS-DOS®4.01 operating system

DOCUMENTATION

- T5200 Reference, MS-DOS 4.01, and Portable Companion manuals
- Hypertext (on-line, disk-resident) documentation includes T5200 Reference and MS-DOS 4.01 manuals

DIMENSIONS

- 14.6" W X 3.9" H X 15.6" D – plasma display model
- 14.6" W X 4.3" H X 15.6" D – color display model

Weight

- 18.7 lbs. for plasma display model
- 18.9 lbs. for color display model

POWER

- 100-240 VAC, 50-60Hz; auto sensing

OPTIONS

- Internal 2400/1200/300bps Hayes® compatible modem; CCITT and Bell compatible
- Internal 2MB memory module (LIM/EMS and/or extended memory); user installable.
- Internal 8MB memory module (LIM/EMS and/or extended memory); user installable. (Must be used with an optional 2MB memory module).
- Leather or fabric carrying case with shoulder strap
- External 5 1/4" 360KB diskette drive
- Expansion chassis with five IBM PC-compatible slots
- Expansion chassis interface card
- Floppy Link to desktop 5 1/4" diskette drive
- External back-up tape drive
- MS OS/2® operating system
- SCO XENIX®, Interactive Systems 386/ix™ operating systems

LIMITED WARRANTY

- One year parts and labor with no-cost Exceptional Care enrollment during this period.
