**Take it from Toshiba.** All those who bet a bundle on a notebook should know how far we go to back them up. As the cards lie, you can bet on a perfect mix of technology, quality and features.

All optimally integrated into the Tecra 550CDT: 266 MHz Pentium® processor with MMX™ technology, 4.1 billion byte hard disk, 20-speed CD-ROM drive and SelectBay modular technology. And it all goes hand in hand with a level of quality that foretells great things in your future. Just ask your Toshiba reseller.

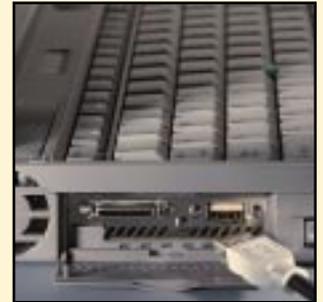

**Unbeatable flexibility:** Thanks to Toshiba SelectBay technology, you can switch in seconds from CD-ROM drive to floppy disk drive, from additional hard drive to second battery.

**For global connections:** With the optional integrated K56flex modem, your notebook can turn into a fax, phone or answering machine.

**The ultimate in enhancements:** Watch your notebook turn into a desktop. Our Desk Station V or Card Station II makes it seem like sleight of hand.

**Small solution with big impact:** An all-in-one link – the USB port puts an end to cable chaos and frayed nerves.
