# Read Me First

# WinBook<sup>®</sup>

All software included with your WinBook has been installed and is ready for you to use.

- Be sure to check for missing items. In addition to the **WinBook unit**, you should have received a User's Manual, utilities diskettes, AC adapter, power cord, battery (within unit), and a PS/2 keyboard/mouse adapter. *Note: The battery insert has been removed prior to shipment.*
- The included User's Manual should be read thoroughly before operating your WinBook.
- We strongly recommend that you charge the battery included with your WinBook before using the computer for the first time.
- A **Quick Start Guide** has been provided for the initial setup and configuration of your WinBook.
- A compilation of frequently asked questions in the format of **Questions & Answers** has been included to assist in resolving the more common problems. Please keep this with your WinBook for future reference.
- If you are having hardware or software problems with the WinBook or included items, contact Technical Support at the number listed below. *Note: If you have a problem or difficulty with other software, hardware or accessories that were not included with the WinBook, it is strongly recommended to refer to the appropriate user's manuals and technical support provided for that product.*

# How to Get Help

*Technical Support* is available Monday through Saturday, 9:00am-9:00pm, and Sunday, 12:00pm-5:00pm (all times are local).

**Voice Technical Support:** 1 (800) 207-3434

**BBS (by modem):** 1 (614) 529-9133

For Sales or Customer Service related issues, contact your local WinBook dealer directly at the location you purchased your computer. *Note: It is very helpful to have the serial number of your WinBook ready when calling for assistance.*

## Before Calling for Help

There are a few things you can check before calling for technical assistance. Please refer to the Questions & Answers guide, included with your unit, to assist in resolving the more common questions.

### WinBook®

**You may receive assistance for your WinBook at the following numbers:**

**Voice Technical Support:** 1 (800) 207-3434

**Customer Sales and Service:** Contact your local WinBook dealer

**BBS (by modem):** 1 (614) 529-9133

REF.# 111 WC 653191

*(It is very helpful to have the serial number of your WinBook ready when calling for assistance.)*

## Quick Start Guide

Congratulations on your purchase of the WinBook XP/XP5!!

When booting your computer for the first time please make note of the following mandatory steps :

Note: Prior to booting the unit, you should ensure that the battery is fully charged. This can be easily accomplished by plugging the AC adapter into both the unit and an AC outlet and charging the battery for two to three hours with the computer off, or until the top cover status light stops blinking. After this has been completed, you are ready to turn the unit on for the first time.

1. Turn the unit ON.
2. At Welcome to Window 95 Setup, click on Next.
3. Input your appropriate user information when prompted.
4. Read licensing agreement and agree to the conditions on the next screen.
5. You must now input the product ID number located on your Windows 95 manual. Please ensure that the letter "O" is used in OEM not a zero.
6. Windows 95 will now complete its installation and configuration to run on your unit. Please select default options when prompted. When finished, the unit will reboot.
7. After the reboot, Windows 95 begins the final setup on your unit. It allows you the opportunity to setup a printer if desired and verify your time zone for the correct time and date.
8. The final step is for Windows 95 to offer users to the chance to make a Startup Disk and to create a set of backup disks. It is recommended that a Startup Disk be made to be kept for emergency purposes. However, creating a backup set of disks is strictly optional because your WinBook comes complete with the original Microsoft Windows 95 disks (Windows 95 uses a new file compression that can fit all 30 disks on the original 14 received with every WinBook).
  - a) If you choose to make the backup set of disks then proceed with 30 new pre-formatted disks and click on the next option followed by continue.
  - b) If you do not wish to create an additional set of backup disks, choose to cancel this operation at this time. Windows 95 can still make the backup set at a later date.
9. Windows 95 will now reboot the unit and all configuration information will be acknowledged during this final restart of the computer.

Your computer is now fully configured and ready for use !!

MM INIT.

# LIMITED WARRANTY

WinBook Computer Corporation, "WinBook", warrants to the original purchaser that this WinBook computer will be free from defects in materials and workmanship for a period of one full year from the date of purchase. Should the computer fail to conform with this warranty during this one year warranty period, WinBook will, at its option, repair or replace the unit at no additional charge. This limited warranty does not include service to repair damage to the computer resulting from a cause other than defect or malfunction, including neglect, accident, unreasonable use, or servicing or modification by anyone other than WinBook Computer Corporation or its designee.

Warranty service may be obtained by delivering the complete computer to WinBook at the address shown below within one year of original purchaser and providing proof of purchase date. If you, the original purchaser, ship the unit to WinBook, you agree to insure it or assume the risk of loss or damage in transit, to pay the shipping charges, and to use the original shipping container or equivalent\*. If the WinBook computer is damaged in transit, you must file a claim with the shipper. For further information, contact:

WINBOOK COMPUTER CORPORATION  
1160 STEELWOOD ROAD  
COLUMBUS, OHIO 43212  
1-800-468-1633

All warranties on this product, both express and implied, are limited to one year from the date of purchase. No warranty, express or implied, including any implied warranty of merchantability or fitness for a particular purpose, is made after the one year period.

If this product does not conform with the warranties given, your remedy is to have the unit repaired or replaced as provided above. In no event will WinBook be liable for any loss or damage, including damages of any kind arising out of the use of or inability to use this product, for incidental or consequential damages, for alteration or loss of software or data stored on equipment sent in for repair or upgrade or for any claim by anyone other than you, the original purchaser.

Some states do not allow limitation on how long an implied warranty lasts or do not allow the exclusion or limitation of incidental or consequential damages, so any such limitation or exclusion may not apply to you.

This warranty gives you specific legal rights. You also have other rights which may vary from state to state.

*\* Equivalent shipping container must meet the following criteria:*

*The WinBook must be packed in foam or bubble wrap, at least 5 inches thick on all sides. If the unit is not packed correctly, damage could result to the hard drive and or LCD screen. Any damage as a direct result of incorrect packing is not covered under warranty.*
