ZENITH DATA SYSTEMS

A Bull Company

Z▪SERVICE

Step Up to Z▪DIRECT

Zenith Data Systems is dedicated to going that extra mile in service. We begin with rigorous quality control and vendor certification to take you one step closer to your performance goals — ensuring that your ZDS system is compatible with existing and evolving industry standards.

Then our Customer Order group tenaciously tracks and expedites your purchase. Standard equipment gets to you as fast as 48 hours; custom configurations as quickly as five days.

Zenith Data Systems stands behind its desktops with next business day on-site service and speedy repair-and-return or carry-in service for portables.* Over 430 service centers and 1000+ service reps worldwide add up to secure service-blanket coverage.

Need help along the way? Reach out to our Customer Assistance Center from 7 am to 11 pm CST, Monday through Friday. Chances are when you dial 1.800.CARE360, you'll join the happy 95% whose problems are solved in just one call.

Easy Payment Option

Z▪DIRECT Leasing is flexible for upgrades, training, installation and maintenance costs. We offer 60-day deferred payment and the option to buy after the lease term for $1. Ask your Z▪DIRECT sales consultant for details.

* See Terms and Conditions, page 23.

Take Z▪CARE in Stride

Z▪CARE℠ extended service contracts put you well ahead of the crowd. Zenith Data Systems works with you to construct the perfect plan to fit your service needs and budget. We even cover other companies' hardware and offer support upgrades like network planning and relocation services.

Electronic Services

Shop Z▪DIRECT on-line, or order a modem or start-up kit for any of these services!

PRODIGY® members type *JUMPZDIRECT* to order ZDS products and get the latest ZDS news!

Internet users can send mail by typing *ZDIRECT@ZDS.COM*. To enter the **ZDS BBS**, set your modem to *8N1* and call *1.708.808.2264*.

Z-NOTE 486

Desktop Performance from a Notebook Pedigree

Zenith Data System's legacy of notebook excellence hits new highs with the 486-based Z-NOTE. 25MHz i486™SL power, an integrated numeric coprocessor and 8K cache memory give true 32-bit 486 performance and outstanding battery life. Cost-efficient RAM expansion and 200MB hard drive capacity make this powerful notebook more like a high-end desktop disguised in the award-winning Z-NOTE design. And in the Z-NOTE tradition, network-ability is built in.

Full Spectrum Video Value

The Z-NOTE 425Lnc reflects brilliant value with a full 256-color LCD. Ready to exploit the latest software, the system offers simultaneous external video support at full SVGA resolution. The Z-NOTE 425Lnp displays Super Twist Nematic (STN) color for a more vibrant show at passive-matrix color savings. And both the monochrome and the 425Lnp can be upgraded to active-matrix color — more of the flexibility and investment protection you've come to expect from Zenith Data Systems.

Z·NOTE 386

History in the Making

The award-winning Z·NOTE 386SL that set design and technology precedents in '92 continues to break ground in '93 with new rock-bottom prices! And now you can upgrade your 386 Z·NOTE to true i486SL 25MHz power. ZDS goes beyond swapping processors to a comprehensive upgrade of your entire system — from 16 bit to 32 bit bus, plus enhanced memory for full-featured 486 performance.

Noteworthy Repute

The Z·NOTE is destined to add to an already impressive list of awards: "Best Buy", PC WORLD (Sept. '92); "Experts' Pick", Windows Sources (Feb. '93); "Exceptional Merit", Portable Computing (Winter '92); and a BYTE Editorial Award of Distinction for 1992 (Jan. '93). In reviewing the top computer products of 1992, PC Magazine chose one and only one PC—the Z·NOTE 325Lc—"Best of '92" (Jan. 12 '93).

Foremost Firsts

Would you expect any less from the company that developed SL technology with Intel and created the first 386SL notebook? ZDS is the first PC manufacturer to integrate networking into notebooks with a built-in Ethernet-compatible high-speed communications port for LAN connectivity. Most notably, the Z·NOTE has network client shells for Novell NetWare, Microsoft LAN Manager and Banyan VINES preinstalled, and was among the first with Microsoft Windows for Workgroups.

Z-NOTE 386

Z·LITE

Z·LITE 320L

Big Things in a Small Package

"Zenith's [Data Systems] cool Z·LITE is the best Windows subnotebook," according to *PC Computing,* (March '93).

Designed with Microsoft Windows in mind, this tiny i386SL has two PCMCIA Type II slots — double the flexibility and expansion for a data/FAX modem, network adapter or other small wonders. It also has a full-size backlit VGA screen and simultaneous video capability.

No Room for Compromise

We packed heavyweight power into the Z·LITE with 20MHz 386SL 3.3V technology for up to 6 hours* of computing freedom using Premier System Management™. Plus first-rate features like Lid Rest/Resume and the at-a-glance battery fuel gauge. The external floppy drive snaps to a petite AC adapter to form a sleek profile that's easy to take with, or opt to leave behind. And the detachable LITEPOINT™ two-button pointing device

allows you to point and click with your thumbs so your fingers don't leave the sloped keyboard.

"Bravo for good design decisions," commends *PC Computing,* and functionality that *"puts the Z·LITE ahead of subnotebooks from Dell and Gateway."*

Proxim
RangeLAN/PCMCIA

RangeLAN/PCMCIA network software makes the "credit card" wireless LAN adapter connection appear as a sub-net on a wired LAN to your portable. Maintain your productivity up to 500 feet from a server.

$595

Z•SPORT

Best Buy

Z•SPORT performance, flexibility and unbelievably low price make it an unbeatable value. *BYTE* magazine called the Z•SPORT *"sleek, decidedly handsome, and built like a tank,"* saying *"this high-quality notebook is a best buy among the systems reviewed."* (Oct. '92 Special Edition).

You Can Take It with You!

The Z•SPORT gives you portable convenience and the custom expandability of a desktop. Slide the Z•SPORT into the optional docking unit, install your cards and you're ready to be part of a LAN, connect to a mainframe or hook up a high-resolution monitor — desktop functionality with ultimate flexibility!

NOVELL®

Look! Local Bus Video!

Now the Z-400+ Series boasts *local bus SVGA for true color video support*, plus VESA-compliant, high refresh rates. Zenith Data Systems' value line of desktops delivers one of the lowest priced 25MHz 486SX on the market, and for an additional $100 you can move up to 33MHz 486SX processing—for the price of most 25MHz machines in its class!

Expansive, Not Expensive

Unlike most low-cost desktops, versatility and expandability are fundamental to the Z-400+ Series. Our systems feature the *Zero Insertion Force (ZIF) Intel OverDrive upgrade socket*. You get five open ISA expansion slots and an open 5.25" drive bay.

Beyond the Basics

Zenith Data Systems will set up your system with another floppy or hard drive, or load additional RAM. Starting with the basics won't stop you from transforming any Z-400+ Series model into a LAN station, or a high-performance desktop publishing system with our 17" (16" viewable) non-interlaced flat technology monitor.

Z-400+ Series

Z·SERVER

Seeing is Believing

Look inside and see why the Z·SERVER received one of the highest-ever AIM performance ratings!* Smart cabling, snap-in rail components and a modular layout make Z·SERVER simple and economical to expand, upgrade and service. Plus it's Pentium™ Processor Technology ready to make the most of the Intel breakthrough.

Balanced Performance Tips the Scales

Z·SERVER boasts uniquely "balanced architecture" for maximized performance. Drive and processor upgrade paths are optimized for more I/O intensive processing. Inferior systems "bottleneck" and don't give the full productivity increase from an upgrade. Z·SERVER also comes custom-configured and certified to run the network giants. You choose from a wide range of internal drive options and mass storage peripherals. Plus, a full year of on-site service is included — at no extra charge!**

UNIX

ZDS makes it incredibly easy to get incredible UNIX™ performance! We save you time by preinstalling SCO® UNIX on Z·SERVERs and Z·STATIONs. Then we optimize drivers and configurations for maximum productivity. We offer integrated UNIX packages and a full SCO software line, and provide the best service and support in the industry for the best price — no additional charge the first year!** Call for details on our SCO UNIX bundles and suggested configurations!

Software

Intel's "speed doubling" technology will make your i486SX or DX computer really zip! The Intel OverDrive Processor gives you up to 70% performance boost system-wide. Zenith Data Systems' superior design makes it easy to install an Intel OverDrive Processor in the desktops in our Z series. Just plug the single-chip upgrade into the vacant OverDrive socket, and it's full speed ahead! There's only one gear for Z series computing: Intel OverDrive!
